Subject: Gold Mine proposal

Hi there,

I have been local resident of the beautiful Adelaide hills since I was a child and I am strongly against the proposed gold mine in Woodside. As a local from the Adelaide hills I have many issues on the proposition of the gold mine, such as the effects it will have agriculturally and in the tourism industry.. In an area that is drawn equally both tourist and local residents for its beautiful scenery and produce, I can't imagine the destruction it would bring to the region.

It would undoubtedly damage / taint the large water basin/reserves which would effect large number on wineries and farmers that have relied on that water for years.

As being a local in such a beautiful area I have also been lucky enough to be involved in wineries and I now have a secure job within the Adelaide hill wine industry. I do not want this gold mine to be approved because I do not want this to affect essentially my livelihood and the career I have chosen for myself.

Please take consideration to read this email.

Kind regards,

Patrick Kepa
