Subject: Keep Woodside mine free

I am a Woodside resident who is very concerned about the proposed terrain mine bird in hand rd.terrain do not have a good track record, eg, Strathalbyn mine, where some of their practices were brought to the attention of the general public though the Hills courier many a time. Can they be trusted to open another mine in such a pristine area, I don't think so, there is far too much at stake here and it would be crazy to proceed. Thankyou
