Subject: Proposed Gold Mine

To Whom this may concern,

It would be a travesty of immeasurable proportions to allow a Goldmining enterprise anywhere in the Adelaide Hills . The mining methods used would ruin the area near the "Bird In Hand " winery which I have visited several times when I am vacationing ,visiting family who live in the hills. I live in Santa Monica ,California but Adelaide is my home town. I have a brother who owns a small farm nearby and he was the one who first introduced me to the winery. Mammoth amounts of precious water are required to blast the rock and soil so pollution is a worry too and also to the diverse bird life in the region. A HUGE NO !! from me,its just not worth it and would cause major irreversible damage to this beautiful part of the world.

Best Regards ,

John Lindfield
