Subject: Terramin proposal

To Whom It May Concern

I am beyond concerned to learn that Terramin are proposing to blast underground twice a day, every day near many local homes and businesses, including a winery I frequent, Bird In Hand.

The Adelaide Hills attracts over 1 million visitors every year thanks to its beautiful landscapes and world class wineries. The proposed blasting could potentially damage water supply which will have a devastating affect on local business and wineries, which would subsequently have massive consequences for the 700 plus tourism-based businesses in the area (as registered with South Australian Tourism Commission).

There seems to have been no thought given to the existing homes and businesses, with the 24/7 increased noise and vibrations from mining operations, such as blasting, within metres of them.

I urge you to decline Terramin's proposal.

Regards
