Dear Mr Sander

### **Lease Application MC4322 - Response to consultation**

I am pleased to advise that your application is progressing and the statutory lease consultation stage has been completed.

Your Mining Lease application was publicly advertised on 5 December 2013 with a deadline for comments on 10 February 2014. Your application was also circulated to relevant government departments, the landholder and the local council with an invitation for comment.

In total 44 submissions were received, with 4 marked confidential. Full copies of the 40 submissions that have not requested confidentiality have been enclosed as Attachment 1 for review.

As a result of the public consultation phase, several issues were raised, all of which DMITRE seeks further information from you.

A consolidated list of all of the issues raised by SA Government departments has been included as Attachment 2. DMITRE requests that you review each of the public submissions and the Government submission and respond to all of the issues raised. This response document is required prior to DMITRE making final recommendation on whether to grant the lease and what conditions are appropriate if the lease is to be granted.

I would appreciate a response within **1 month** of the date of this letter. If an extension is required, please contact the Assessment Officer below. Please be aware that the response document you provide will be available to the public.

If you have any enquiries please contact Paul Thompson, Assessment Officer, Ph: 82260285, Mobile: 0477373972.

Yours sincerely

**Andrew Querzoli**  
**Manager Mining Assessment**
