Subject: Opposition to the woodside mine

Hi

My name is Jeremy Little, I'm currently studying winemaking at the University of Adelaide and working out in Woodside at Bird in Hand Wines. The proposal of a gold mine at Woodside would have massive negative implications for the area with the pollution and noise it will create. After working in Woodside for quite some time I've seen just how beautiful the area is and how important the wineries are there. This mine will be a giant blemish on a beautiful picturesque landscape not to mention the negative impact it will have on the wines produced with its pollution of the water and the downfall in tourism the mine will create.

Growing up in the Hunter Valley in New South Wales I've seen the negative impact of coal mines, not only on tourism but the taint the pollution imposes on the vines. I would hate to see this happen to the Adelaide hills and most directly to the great town of Woodside.

Please put a stop to this and preserve the great culture and community of Woodside.

Regards

Jeremy Little
