I understand that my submission, including my personal contact details, will be published on the DEM website and provided to the applicant	checked

Submission details

Issue	polluting the underground water
Reference and page number (if known)	
Comment	south east underground water is becoming more salty....this is a known fact!
Additional comments	pollution of water of any type of pollution in a country that has already many problems with its water supply is in my oppinion a stupid thing to do. We are already reaping the results of water pollution in many areas of this country. We dont need to add to the problem.
