I understand that my submission will be published on the DEM website and provided to the applicant, but I require that the government withholds my name and contact details. I understand that it is my responsibility to ensure personal information is not included in the body of my submission, any footers or headers or any attachments	checked

Submission details

Issue	Environmental Impact
Reference and page number (if known)	MP 1.6-19
Comment	Terramin'st statements of intent are vague and very non-specific in terms of HOW they are going to achieve the broadly described standards of care they aspire to. This is such a crucial issue, particularly in this environmentally aware and critically sensitive period. Bland, vacuous assurances do not carry any weight and do little to minimise the potential for long term destruction of vital resources (particularly local water, roads, and pristine air)
Issue	Community Policy
Reference and page number (if known)	MP 1.7

<p>Comment</p>	<p>Terramin portray a conscientious approach to a harmonious coexistence with local community. This attitude is completely superficial, and is belied by Terramin being the only party to object to the neighbouring development proposal by Bird in Hand Winery to develop their winery site to include a state of the art, international art gallery and sculpture park. There are three individual winery cellar doors open to the public within a few hundred metres of the proposed mine site. The noise, underground explosions (2 per day_ dust and trucks driving along these roads will deter tourists and effect cellar door activity, drastically affecting local employment and enjoyment of the pristine Adelaide Hills environment by the tens of thousands of visitors that come from all over the world each year</p>
<p>Additional comments</p>	<p>I totally oppose this mine going ahead and cannot see it beign in the long term interests of the Adelaide Hills area. Short term financial gain by Terramin is hugely disproportionate to the long term risk created by their mining activities.</p>
