GPO Box 1264, Adelaide, 5001.

Dear Sir,

I wish to lodge a strong objection to the rezoning for mining of the 5000 hectares of land on the eastern side of Yorke Peninsula. The land has been farmed for over 100 years and has been producing food for that time. Once the land is used for mining that capacity is gone for ever. It should not be sacrificed for short term mining gains.

There are minerals to be found in land that is not productive for agriculture.

Please reject the application for rezoning.

Yours sincerely,
