To whom it may concern,

The current proposal to allow a gold mine in Woodside is very concerning. So much potential damage for very little gain. We must protect our natural resources and assets- soil, water, habitats, air and sound. Please act now to not allow this mine.

I live and work in the Adelaide hills (Woodside and Mt Barker) and invested in a lifestyle. I hate that this lifestyle and the property I own - and work incredibly hard to achieve - will be very potentially devalued should this mine go ahead. I lived for a while in Japan and was disgusted at the wanton destruction and mismanagement of the remaining natural assets. We have enough destruction of natural assets around us in the world at large and here in Australia. We should work to be leaders in conservation.

Please act to protect the value of our environment and properties.

Yours faithfully,

Jessica Ryan.
