Subject: Woodside Mining Project

Greetings

This email is to express my support to keep the Adelaide Hills free of mining activity.

The Adelaide Hills has many different industries, most of them revolve around promoting tourism through protecting the natural environment. I do not believe that short-term mining is consistent with those existing long-term sustainable operations

As a resident of the Hills I am also concerned of the cost of repairs and increased heavy vehicle traffic on the roads between the Hills and Strathalbyn. As a rate payer am I going to be indirectly paying for the mining operation through increasing road-repair costs

I'm not anti-mining, but I do not believe it fits with the Adelaide Hills community and Industry mix

Regards

Tim Jones
