**Subject:** Woodside mine objection

To whom it may concern,

I am an Adelaide Hills worker, currently employed at Bird In Hand Winery which is situated right next to Terramin's land on which they are proposing to mine gold.

The impact of a next door mine could be catastrophic for our business with repercussions on mine and my colleagues jobs;  
not only that it will most certainly have negative effects on the environment, there is no way that testing can adequately predict the impact of underground blasting on our precious aquifer system.  
The only way to ensure the security of our water is to stop this mine from going ahead.

We desire to continue our quest in producing high quality wines for the world to enjoy, proudly made here in the Hills.  
My main concern is that we will not be able to do that if this proposal goes ahead.

For those reasons and more (i.e. potential loss of tourism, increased road safety issues related to large numbers of heavy trucks on our roads) I desire to state here my strong objection towards this project.

I confide in this state government's common sense and goodwill to stop the mine from going ahead.

Kind Regards

Matteo Malgese
