**Subject:** Terramin Mine Woodside

To the Powers that Be

I am a recent purchaser of a prime vineyard property on Pfeiffer Road, Woodside.

Our family-owned and operated business has, for the past 21 years, grown and produced premium Adelaide Hills wine, selling to markets in Adelaide, Sydney, Melbourne, Brisbane, the United Kingdom and Switzerland. This is not a business established from previous wealth, but from the industry itself - from knowing where the good land is, how to nurture it and how to avoid mistakes.

I do not believe that growing premium fruit on Pfeiffer Road, Woodside is a mistake, unless you choose to give Terramin the right to destroy that environment.

My request is for you to deny Terramin their license to mine, so that future generations can sustainably and successfully prosper, tourism can flourish and the water aquifers of the Inverbrackie Catchment are kept pristine and intact.

Regards

Dave Neyle
