Subject: Woodside mine

To whom it may concern,

I would like to express my opinion and concern regarding the proposed Woodside mine. I find it extremely surprising that a mining venture so close to a city of a million people, important agricultural land and tourist attractions is even being considered for approval. So much of the state's status is due to it being recognised as clean and natural. Risking the reputation of the state (and especially the local area) on something that will generate so little money for the state, relatively speaking, is just not wise decision making. Personally I would not want my name to be attached to the approval of such a venture which may prove to be disaster for the region. That is not a desirable legacy to leave behind. I urge you to decide against the mine.

Thank you.

Michal
