Submission details

Issue	Noise
Reference and page number (if known)	chapter 16
Comment	The noise created by Terramin proposed mine is a real concern to the adjacent wineries/business that operate to provide a calm, peaceful place to enjoy the fruits of the Adelaide Hills. Although Terramin claim they will abide by the noise limits as outlined, it is the constant nature of drilling over a long period of time that concerning. I was at Bird in Hand Winery when Terramin was drilling their 'test' holes, and I can guarantee the sound was loud, harsh and was detriment to the experience of tourists who came to enjoy food and wine at Bird in Hand Winery. Terramin have a licence to mine for up to 20 yrs. Our business and surrounding wineries cannot co-exist with a noisy mine!!!!
Issue	Water quality
Reference and page number (if known)	

Comment

Water is a critical ingredient to the sustainability of quality of vineyards and orchards etc. The Adelaide Hills region is dependent of its quality of water. Terramin drilling into the water aquifers poses a huge risk to water quality. Despite their 'modeling' claiming there is no risk, no amount of modeling can 100% guarantee our vital water supplies won't be contaminated. The RISK IS TOO GREAT.
