

Retailer Energy Productivity Scheme (REPS)

Application guide for approval of a tariff in the Retailer Energy Productivity Scheme (REPS) under REPS activity specifications:

- TOU1 - Switch Household Electricity Plan from Single Rate tariff to TOU tariff: Residential only
- WH3 – Switch electric (HP or resistance) water heater to tariff with solar sponge and off-peak blocks: residential or small energy consuming customer only

Version 1.0

Approved: 5 March 2021

1. About this guide

Use this guide to apply for eligibility approval for tariffs under REPS ToU1 and WH3.

Completed forms and supporting documentation should be submitted to dem.reps@sa.gov.au

Note:

As per the REPS specification ToU1, the SAPN-defined Residential Time of Use or Residential Prosumer tariff are eligible tariffs under ToU and do not need to seek eligibility approval.

As per the REPS specification WH3, the SAPN off-peak controlled load (OPCL) tariff (solar sponge) tariff is an eligible tariff under WH3 and does not need to seek eligibility approval.

2. Questions – Tariffs

TOU1

Applications for approval must include the following information

1. Name of tariff.
2. Outline the tariff structure and rates.
3. Details on how the tariff provides real and significant incentives to move energy use from peak demand periods to minimum demand periods.
4. Does the tariff comply with all requirements in the REPS TOU1 specification? Please outline any variances from that specification.
5. Has the tariff been assessed and approved as a “Smarter Homes – Alternative Tariff Structure?” Please provide details.

WH3

Applications for approval must include the following information

1. Name of tariff.
2. Outline the tariff structure and rates.
3. Details on how the tariff provides real and significant incentives to move energy use to minimum demand periods.
4. Does the tariff comply with all requirements in the REPS WH3 specification? Please outline any variances from that specification.
