Air Quality Outcome

1. The Tenement Holder must ensure that there are no public health and/or public nuisance impacts from air emissions or dust generated by mining operations.

Noise Outcome

2. The Tenement Holder must, during construction and operation, ensure no public nuisance impacts from noise as a result of mining operations.

Blasting Outcome

3. The Tenement Holder must during construction and operation, ensure that there are no adverse impacts from airblast, flyrock and vibration caused by blasting to:
 - 3.1. Public safety,
 - 3.2. human comfort,
 - 3.3. third party property (including stock),
 - 3.4. adjacent land use,
 - 3.5. adjacent infrastructure and operations,
 - 3.6. adjacent public roads,
 - 3.7. aircraft,
 - 3.8. other receptors.

Soil and Land Disturbance Outcomes

4. The Tenement Holder must during construction, operation and post Completion ensure that the existing (pre-mining) soil quality and quantity is maintained.
5. The Tenement Holder must ensure that there is no contamination of Land and soils either on or off the Land as a result of mining operations.

Public Safety Outcome

6. The Tenement Holder must during construction and operation, ensure that unauthorised entry to the Land does not result in public injuries and or deaths that could have been reasonably prevented.

Adjacent Land Use and Third Party Property Outcome

7. The Tenement Holder must during construction and operation ensure that there is no unauthorised damage (including that caused by fire) to adjacent public or private property and infrastructure.

Aboriginal and European Heritage Outcome

8. The Tenement Holder must during construction and operation, ensure there is no damage, disturbance or interference to Aboriginal and non-Aboriginal heritage sites, objects or remains as a result of mining operations unless it is authorised under the relevant legislation.

Native Fauna Outcome

9. The Tenement Holder must ensure that there are no native fauna injuries or deaths due to mining operations that could reasonably have been prevented.

Native Vegetation Outcome

10. The Tenement Holder must ensure there is no loss of abundance and/or diversity of native vegetation on or off the Land through clearance unless a significant environmental benefit has been approved in accordance with the relevant legislation.

Weeds, Pests and Pathogens Outcome

11. The Tenement Holder must during construction and operation, ensure no introduction of new species of environmental weed, plant pathogens or pests (including feral animals), nor sustained increase in abundance of existing weed or pest species on the Land.

Surface Water Outcome

12. The Tenement Holder must ensure no surface water contaminated as a result of mining operations leaves the Land.

Waste Disposal Outcome

13. The Tenement Holder must during construction and operation ensure that all commercial or industrial waste is disposed of in accordance with relevant legislation.

Mine Closure and Rehabilitation Outcomes

14. Tenement Holder must ensure that the risks to the health and safety of the public, native fauna and livestock are as low as reasonably practical.
15. The Tenement Holder must ensure no contamination of surface water occurs post Completion as a result of mining operations within the Land.
16. The Tenement Holder must ensure the land is progressively and finally rehabilitated to support the future land use.
17. The Tenement Holder must ensure the site and WRD final landforms will be chemically and physically stable post Completion.
18. The Tenement Holder must ensure all rehabilitated landforms integrate and harmonise with the surrounding landscape.
19. The Tenement Holder must demonstrate that post Completion, the risks to the health and safety of the public so far as they may be affected by mining operations, are as low as reasonably practicable.

20. The Tenement Holder must ensure that all mining related infrastructure is decommissioned and removed from the Land at mine completion unless the Director of Mines (or other authorised officer) has approved, in writing, for the infrastructure to remain.
21. The Tenement Holder must ensure that no industrial or commercial waste left onsite.
