Submission details

Issue	Inappropriate use of high value agricultural land
Reference and page number (if known)	
Comment	<p>Since the original mining operations closed down many decades ago, much has changed in this locality. In particular, the establishment of a premium horticulture and wine industry and associated tourism infrastructure has provided great economic and social benefits to the region. In my submission, high-value high-employment horticultural and tourist industries are the preferred use of this part of the Adelaide Hills.</p> <p>Mining operations and associated impacts such as noise, dust and truck traffic are inconsistent with the rural ambiance of the locality. In addition, the impact of mining on groundwater is an unacceptable risk to other users of that resource and groundwater dependent eco-systems.</p> <p>The applications should be refused.</p> <p>Hon. Mark Parnell MLC, LLB, BCOM , MRUP Australian Greens (SA) Parliament House, Adelaide</p>
