

Petroleum Data Sets

Cooper Basin products (Courtesy Lisa Hall, Geoscience Australia, 2016)

Regional structural cross-sections of the Cooper Basin extracted from the 3D model (from Hall et al., in prep).

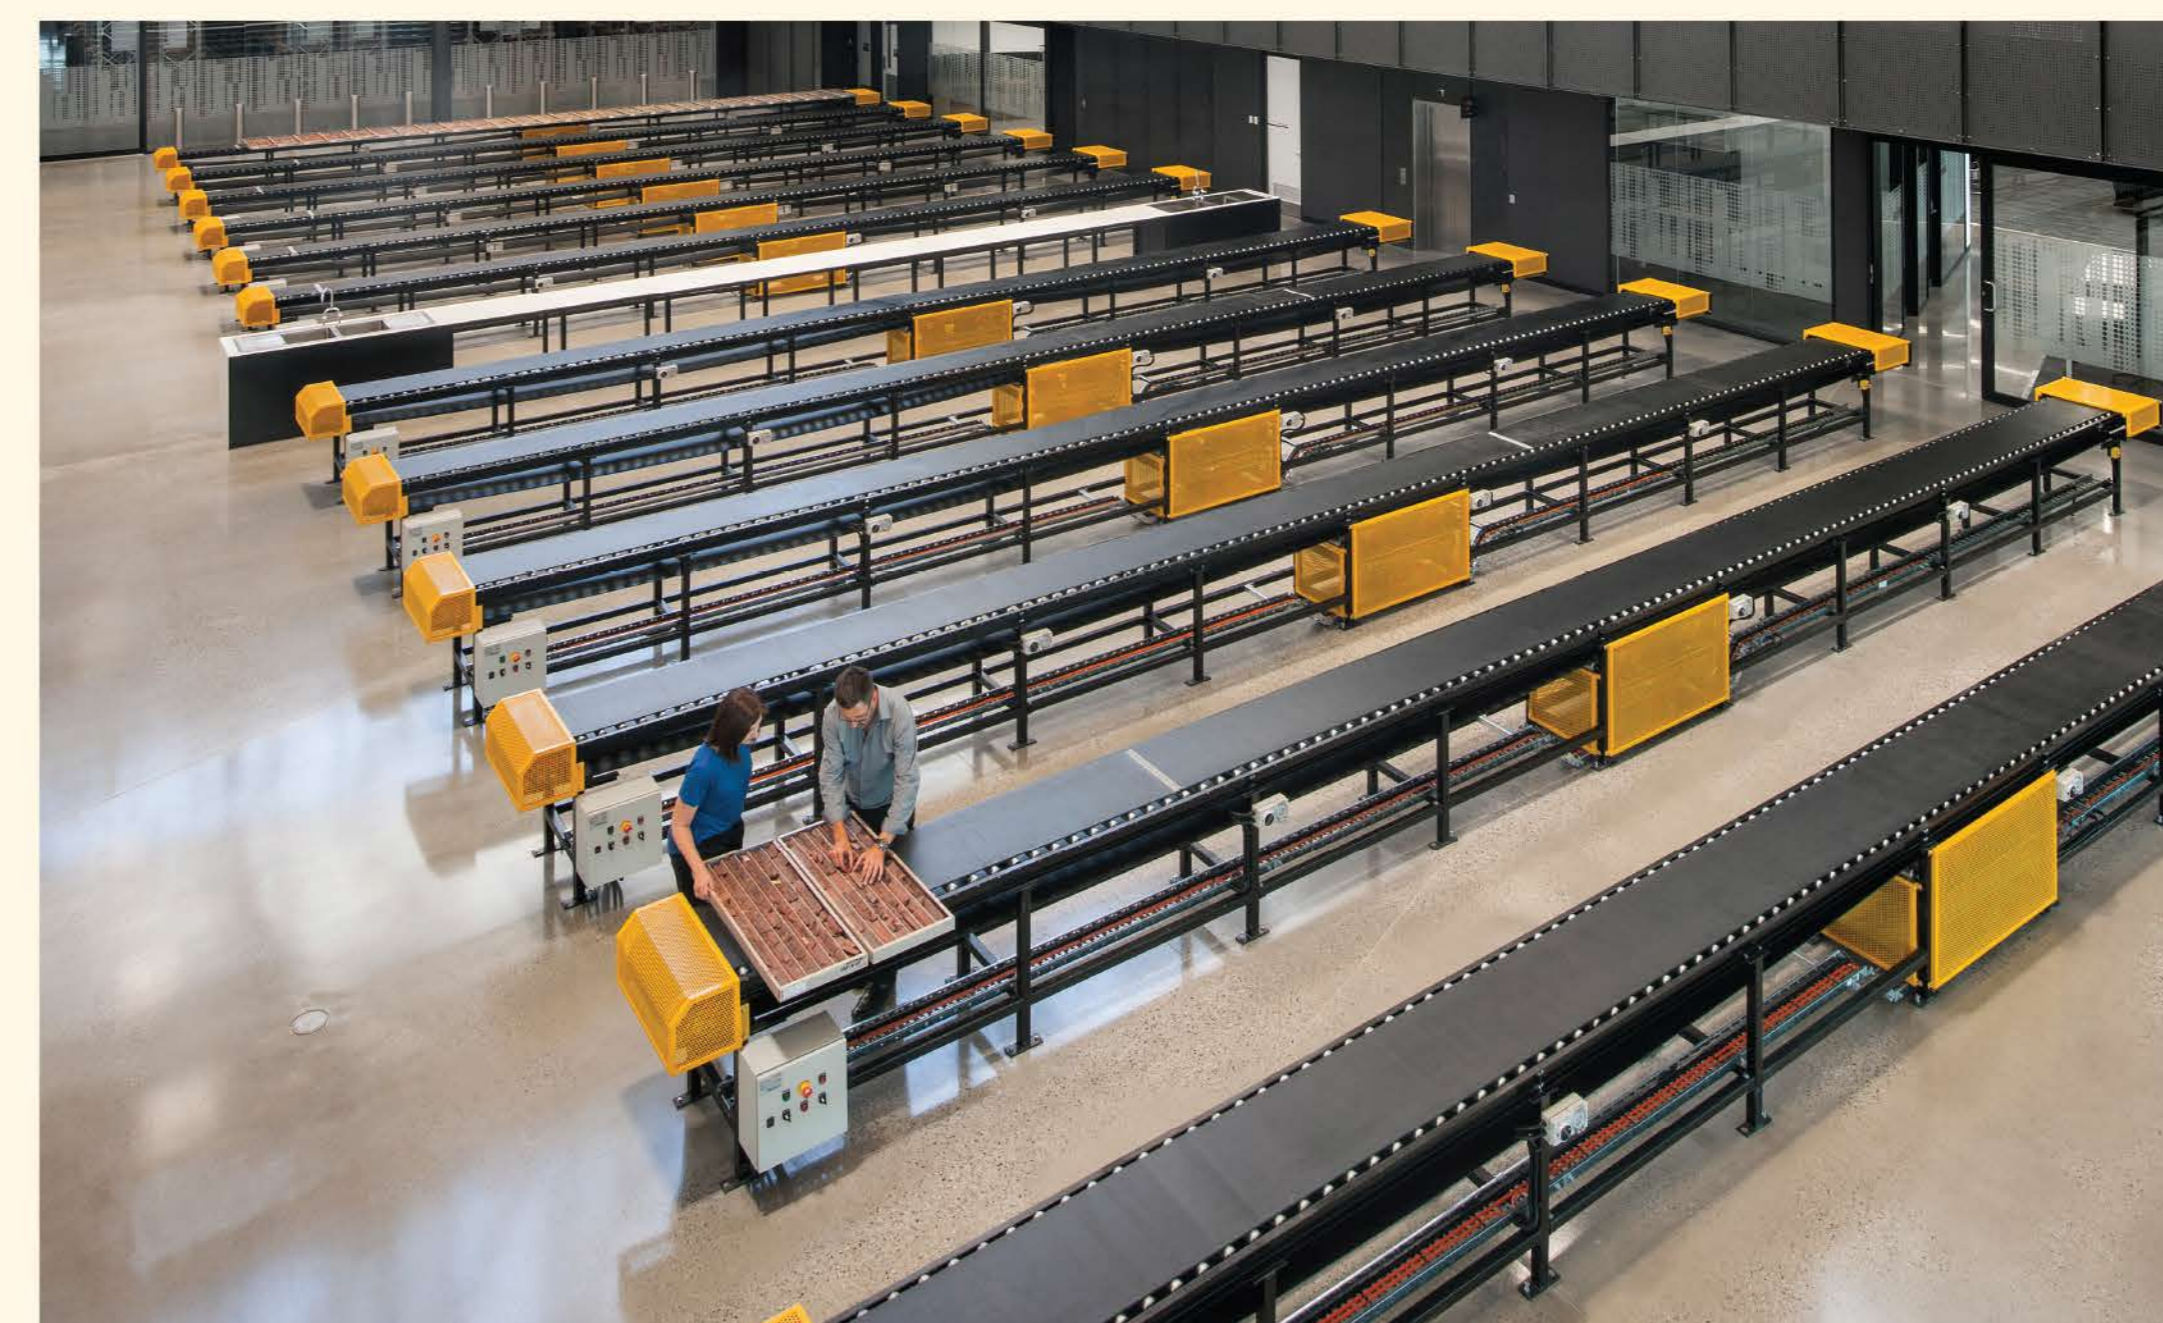

Map of the combined modelled volume of hydrocarbons generated from all Permian source rocks (MMboe/km²). Results represents the total amount of hydrocarbons generated. No distinction is made here to account for adsorption and hence hydrocarbons expelled versus retained.

South Australia Drill Core Library

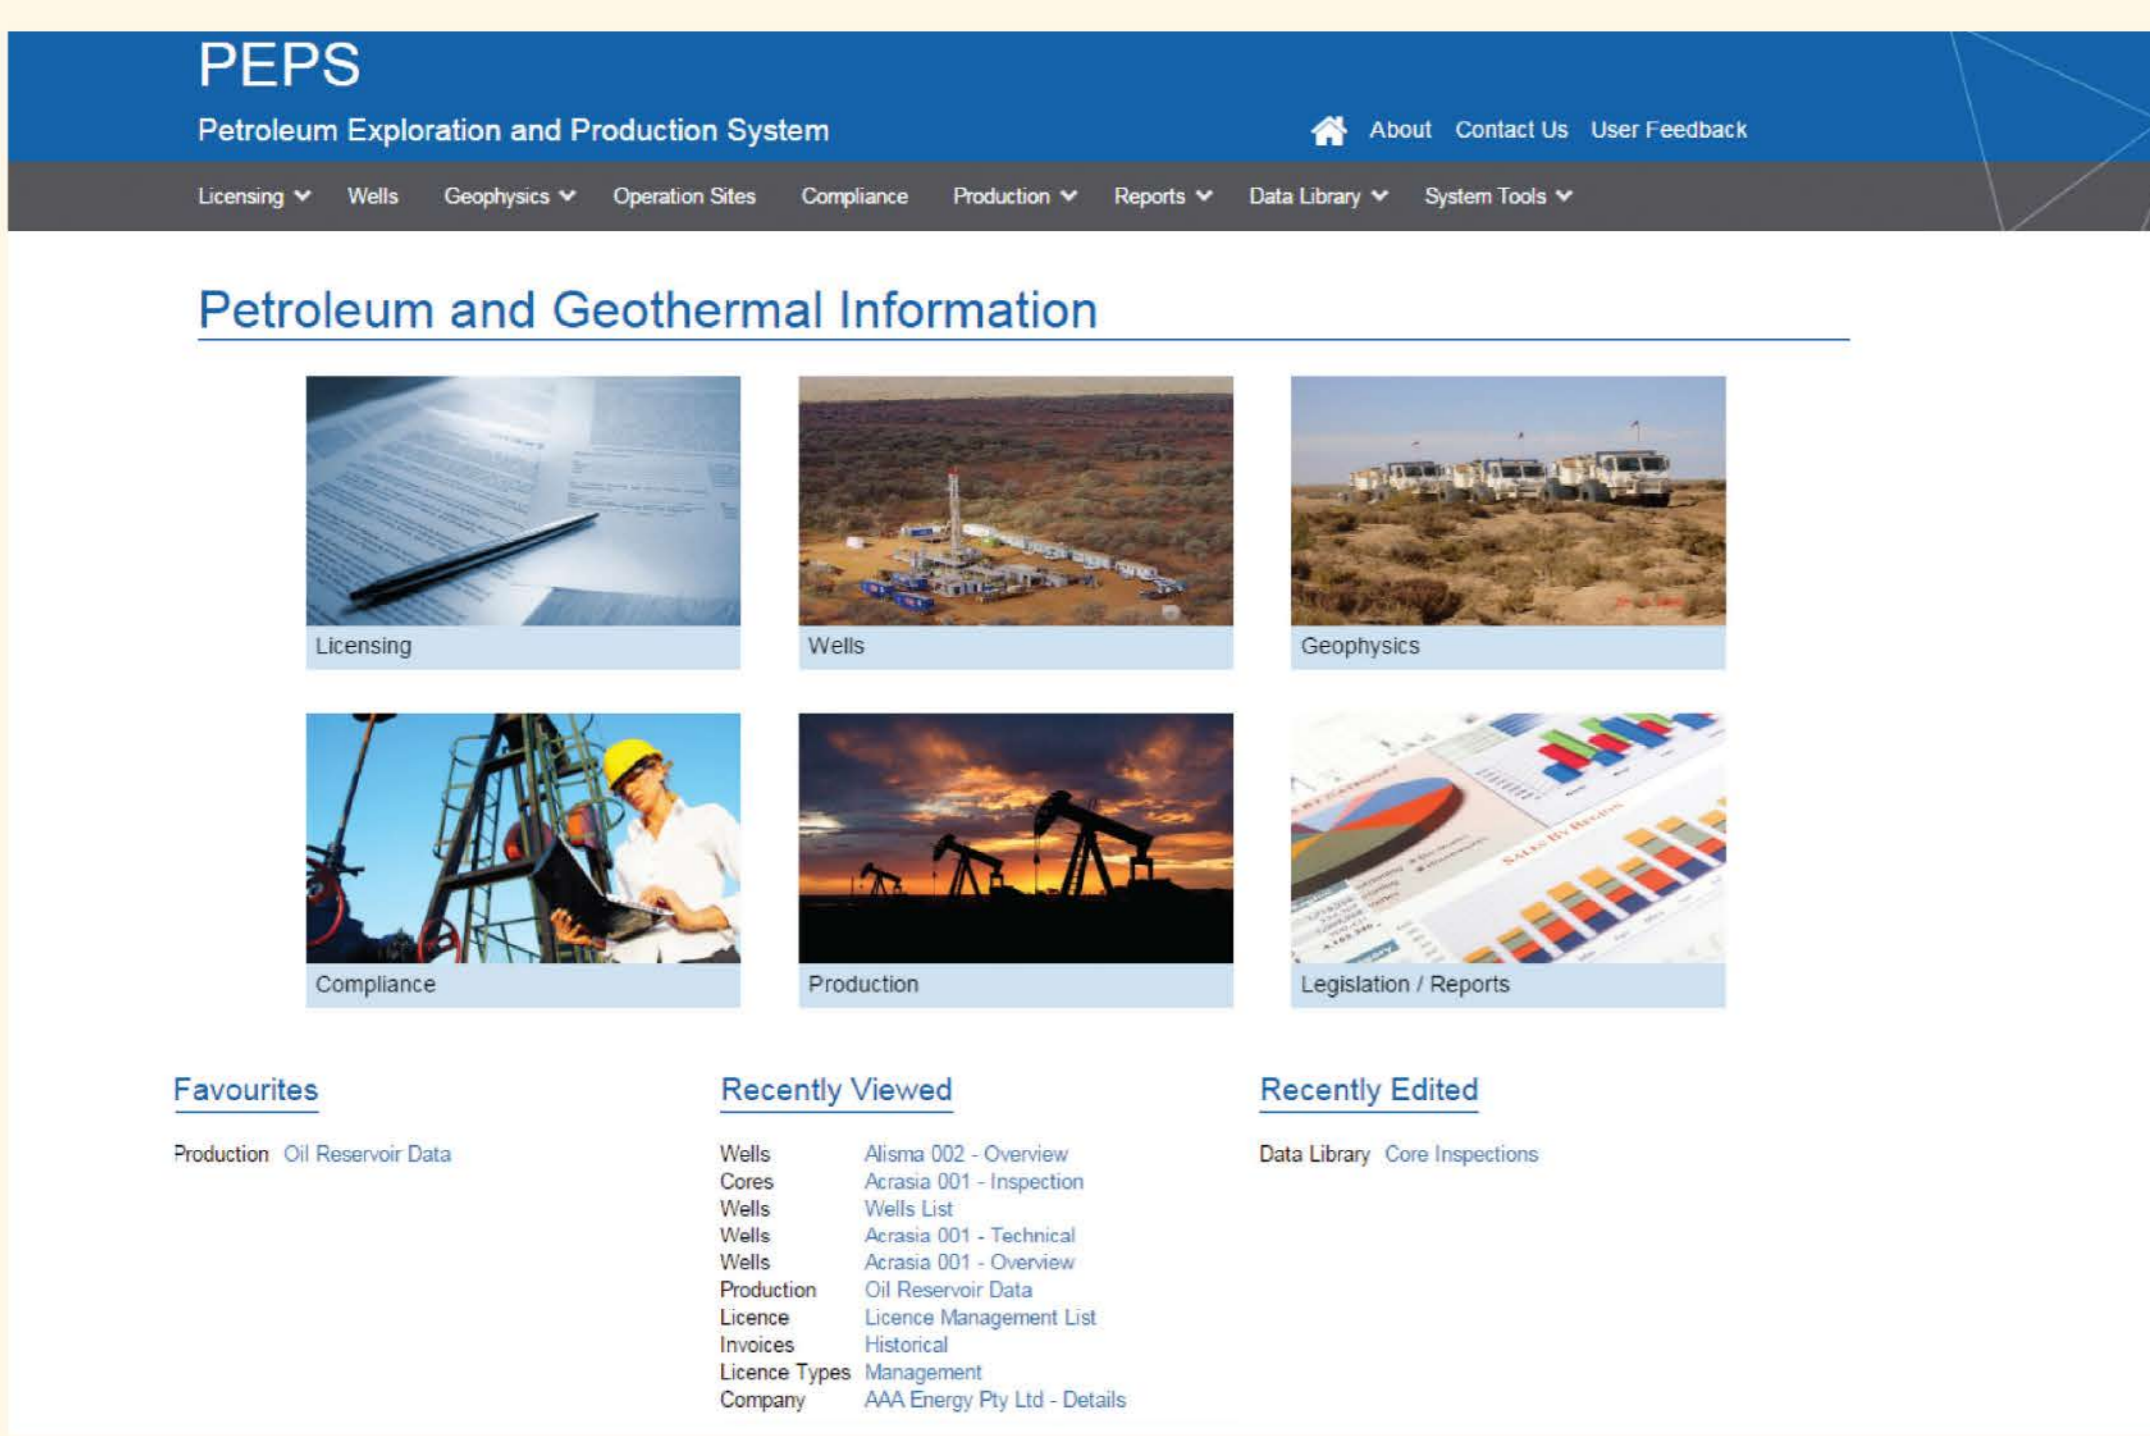

The new \$32.2million South Australia Drill Core Reference Library is located at Tonsley, 9km from Adelaide's CBD, and open for business in July-2016.

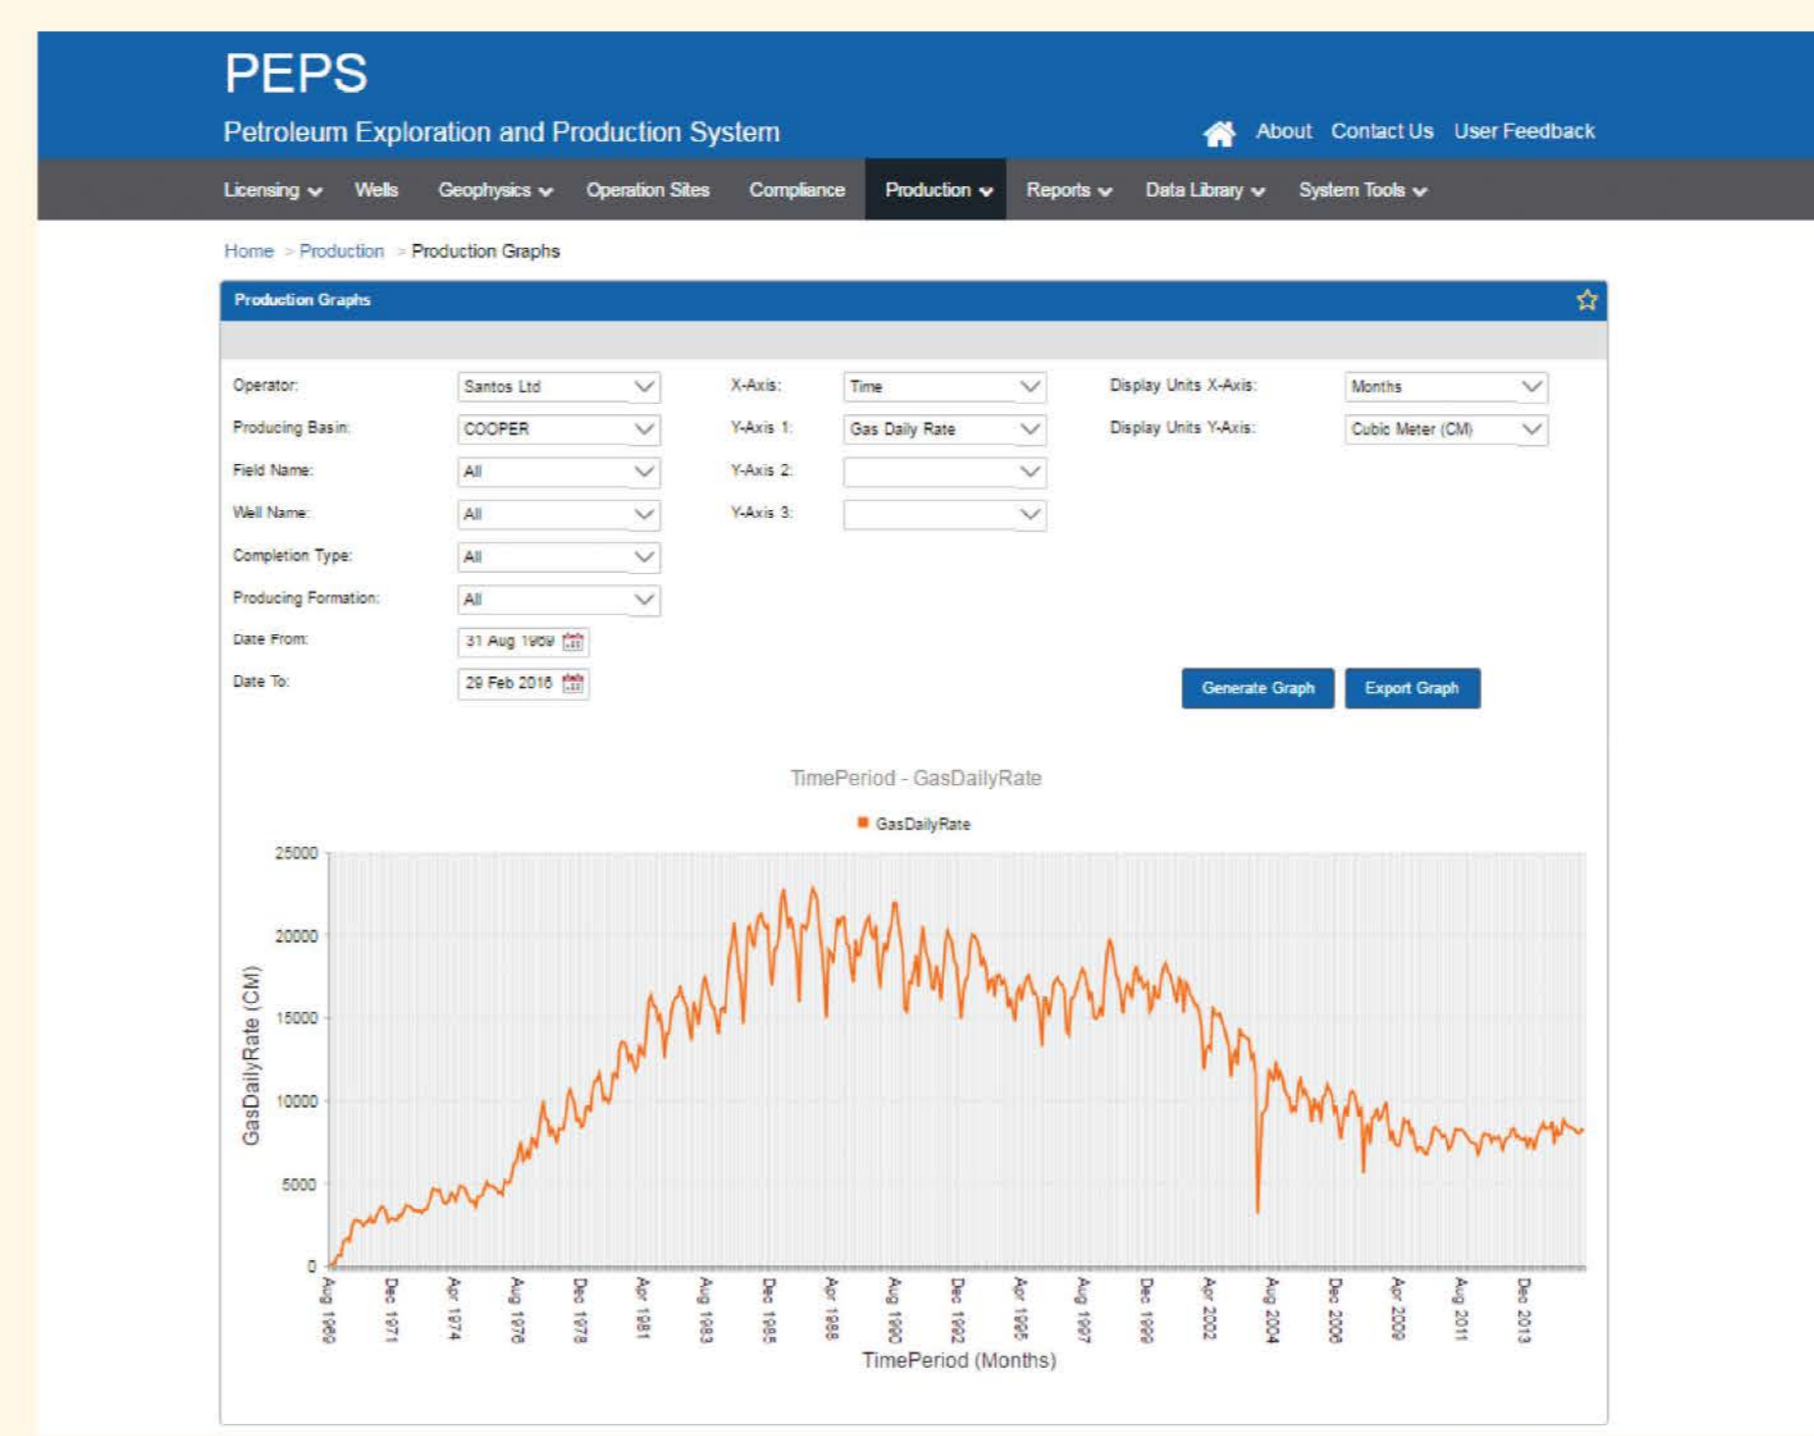

Nelson Discovery Hall showing the extensive core layout tables in a climate controlled viewing area.

PEPS re-platforming project

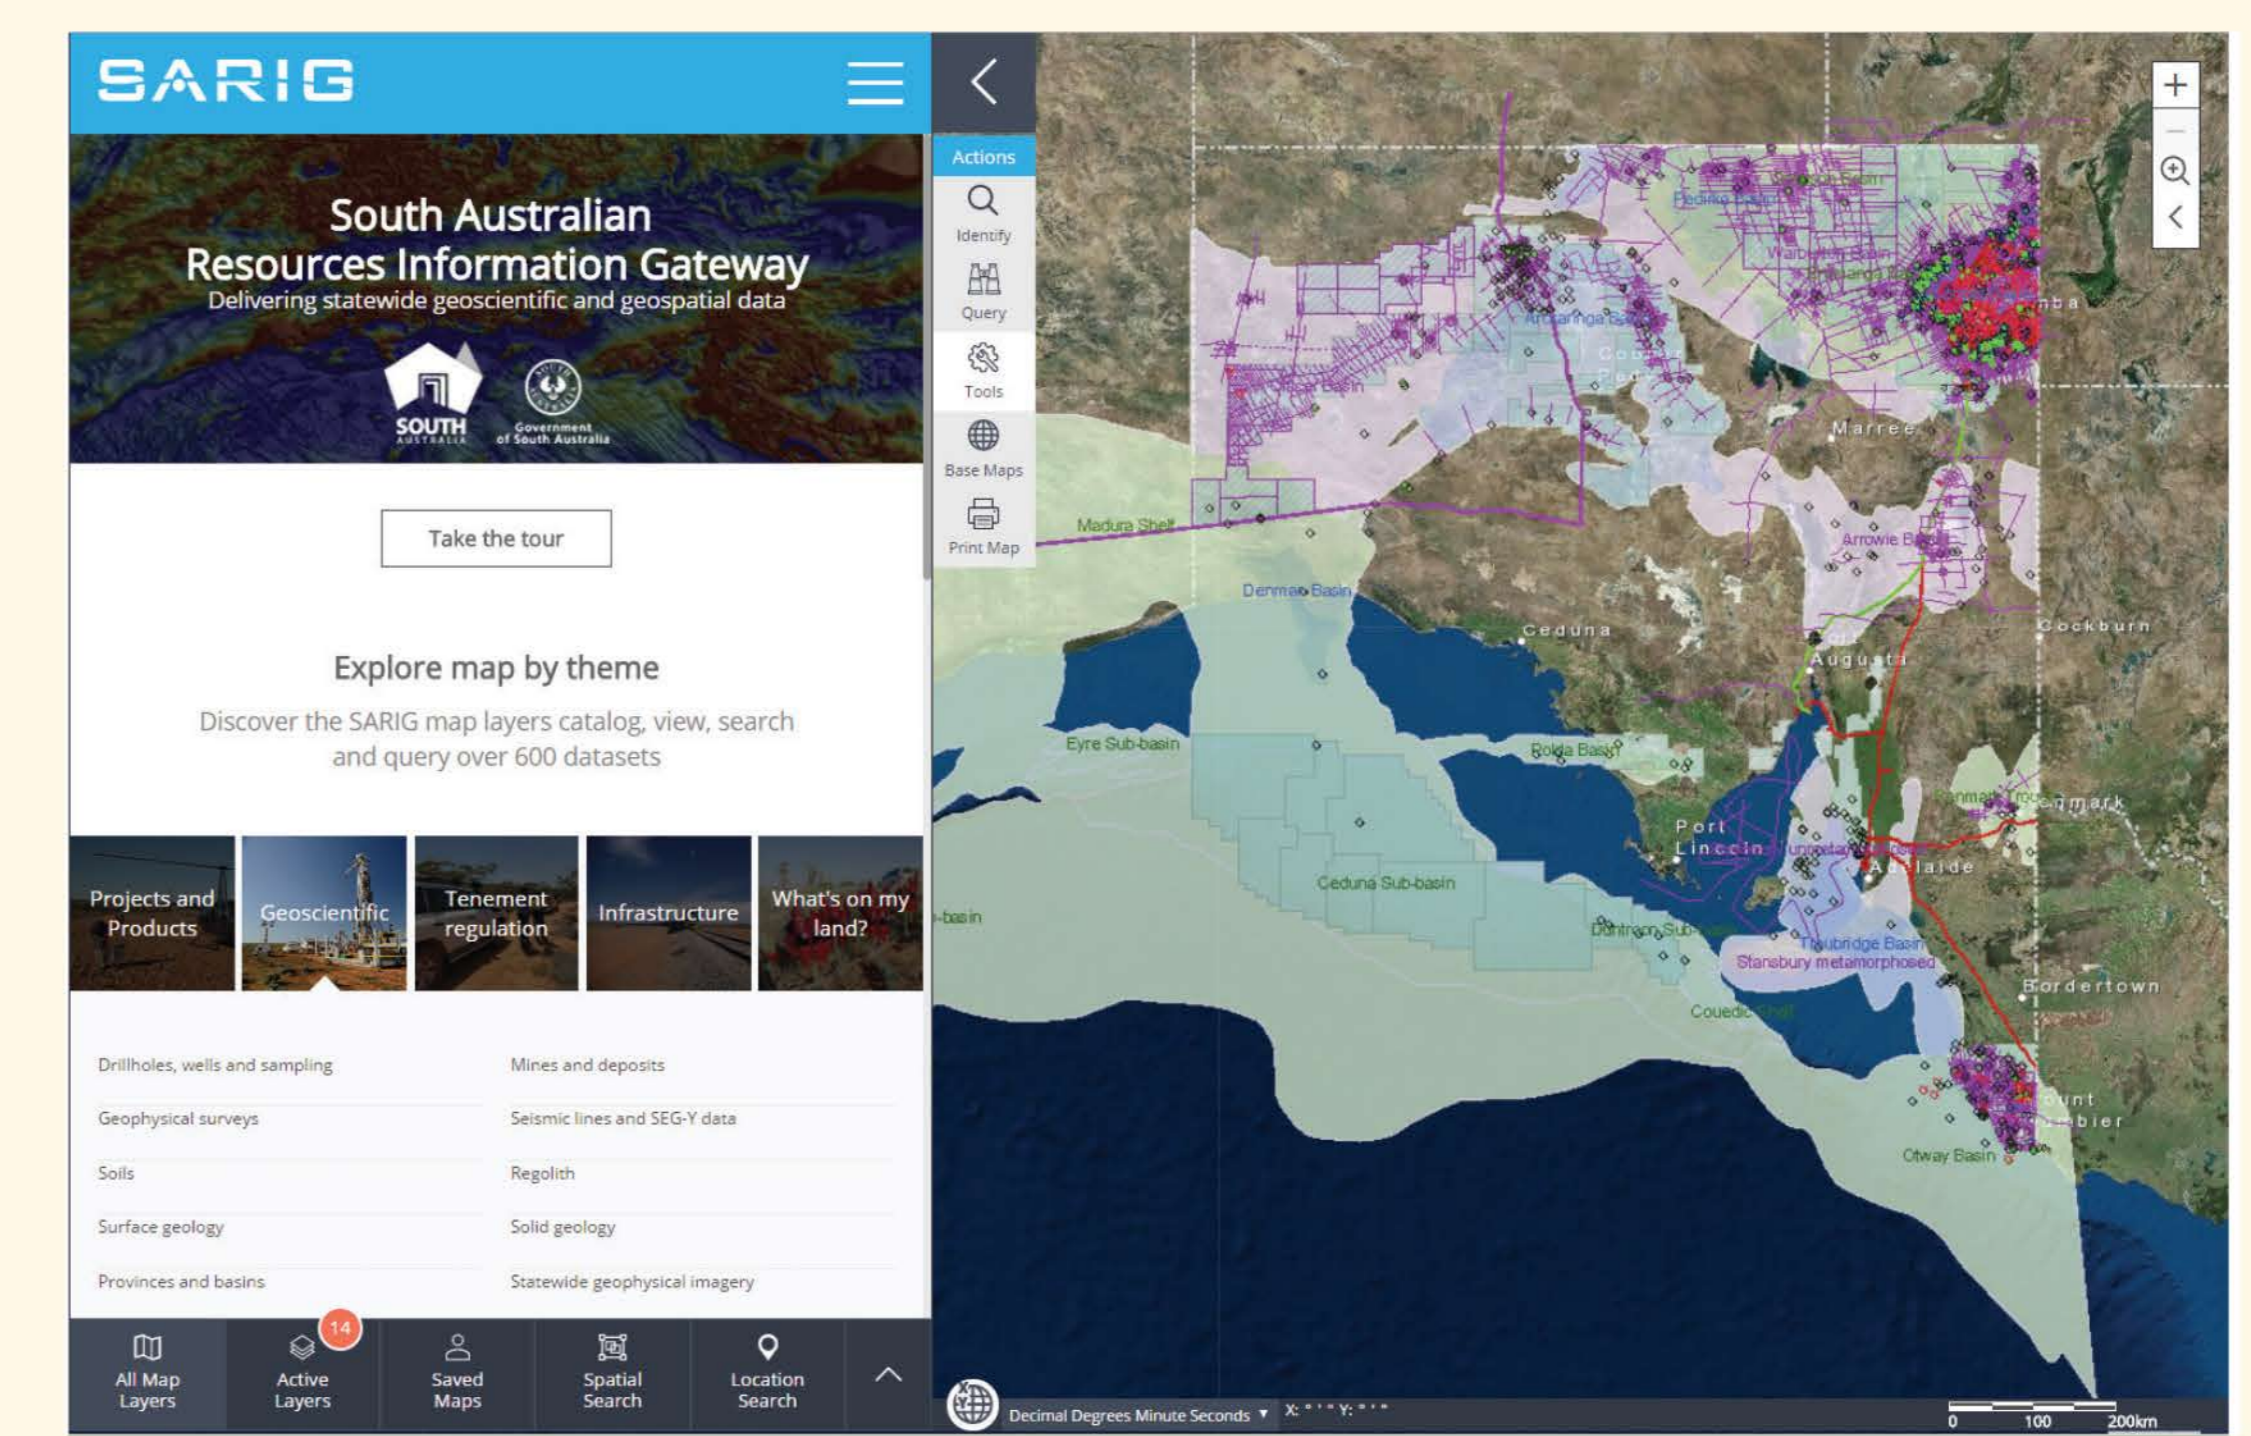

- A major project to migrate South Australia's Petroleum Exploration and Production System (PEPS) database onto a fully web-enabled platform is in progress
- Please talk to Petroleum SA delegates for more information or to give feedback on this project

Free downloads

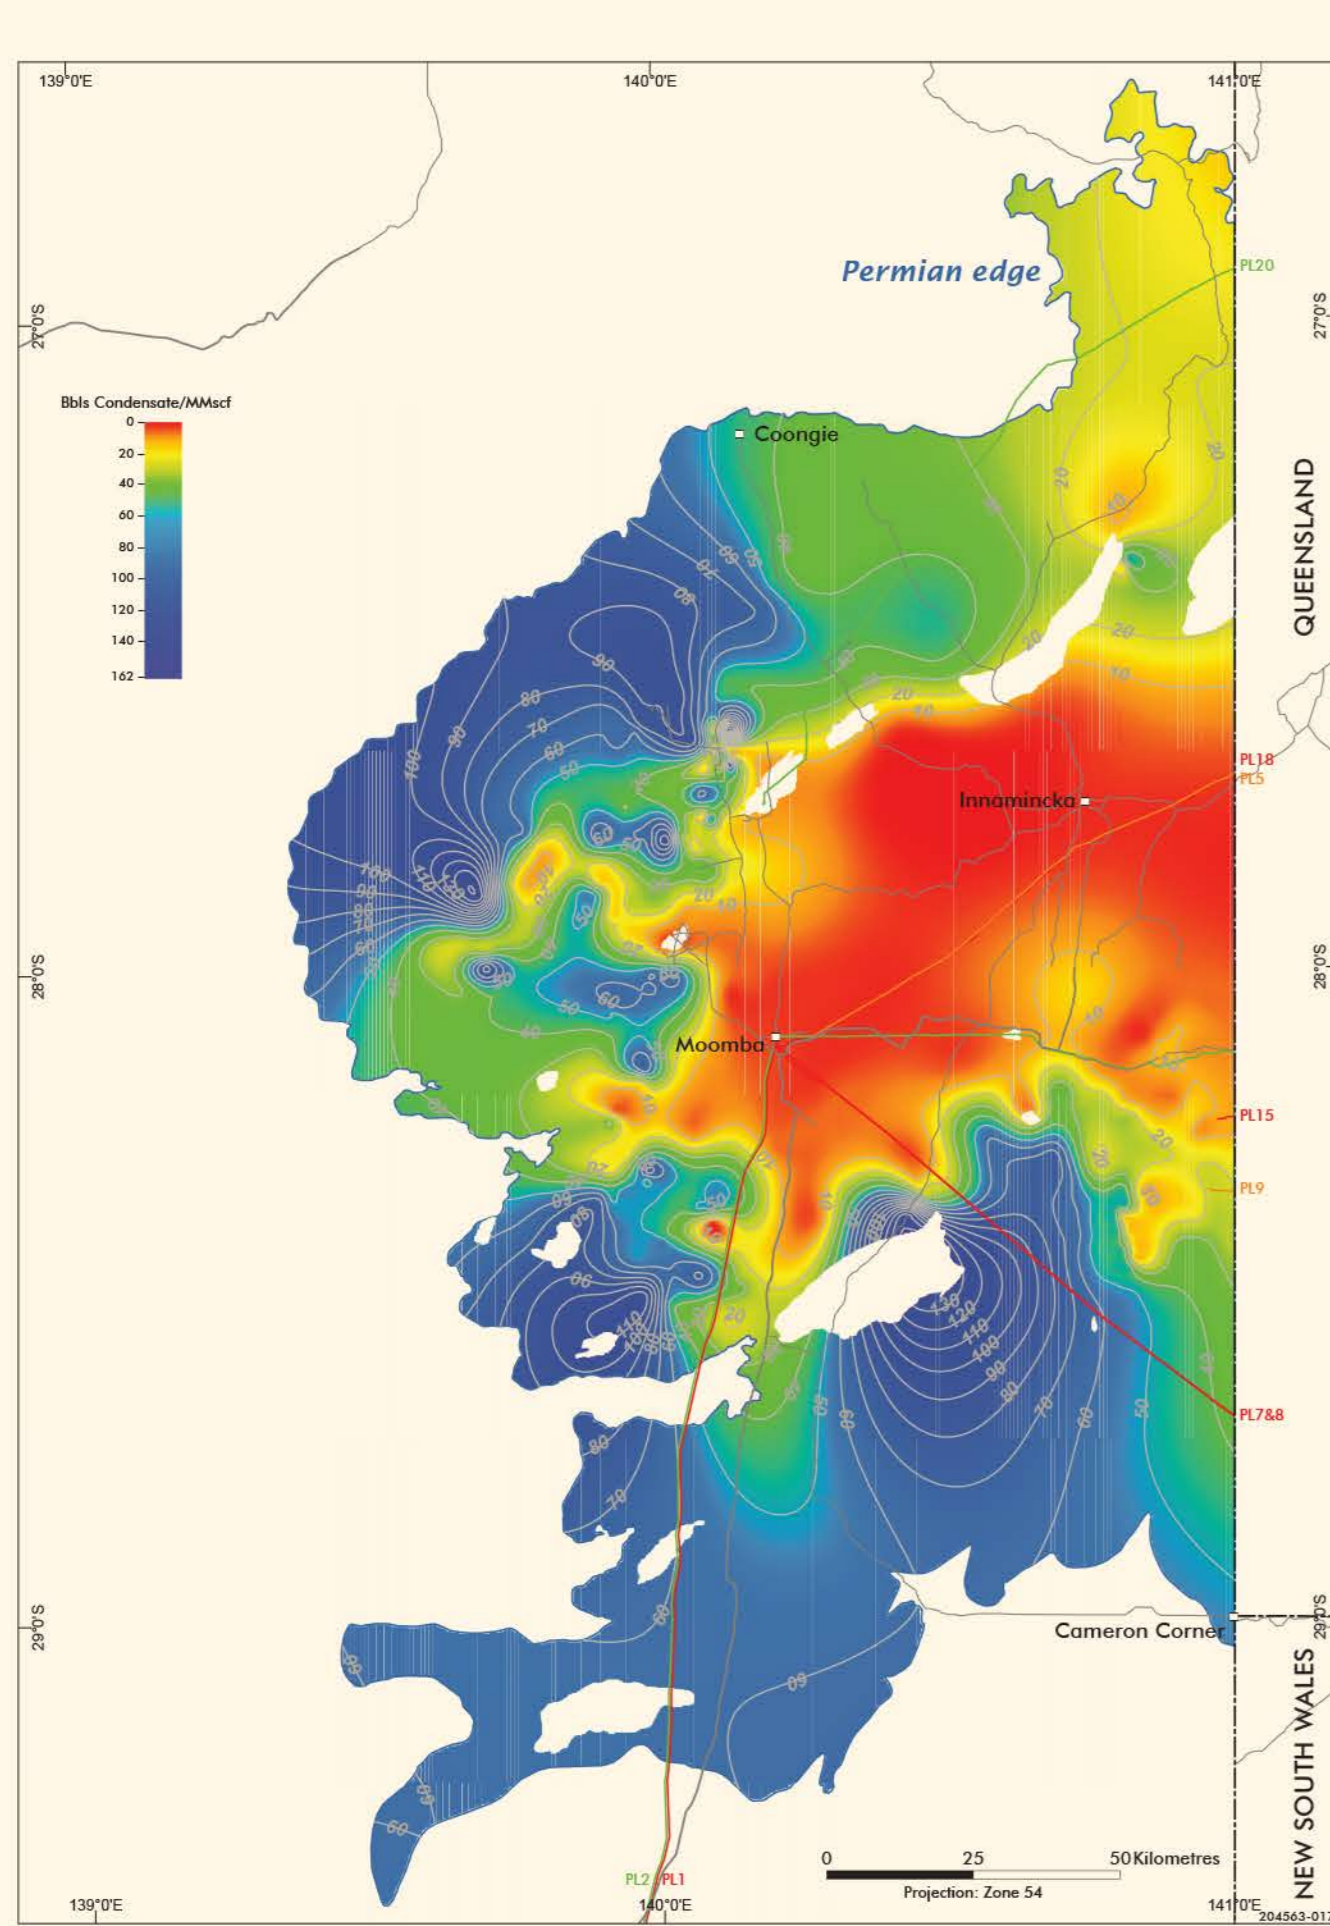

- PEPS-SA database (oil and gas production – Cooper and Otway basin, wells, seismic, formation tops DSTs etc)
- Core photo database and scanned thin section database
- Well completion reports

SARIG

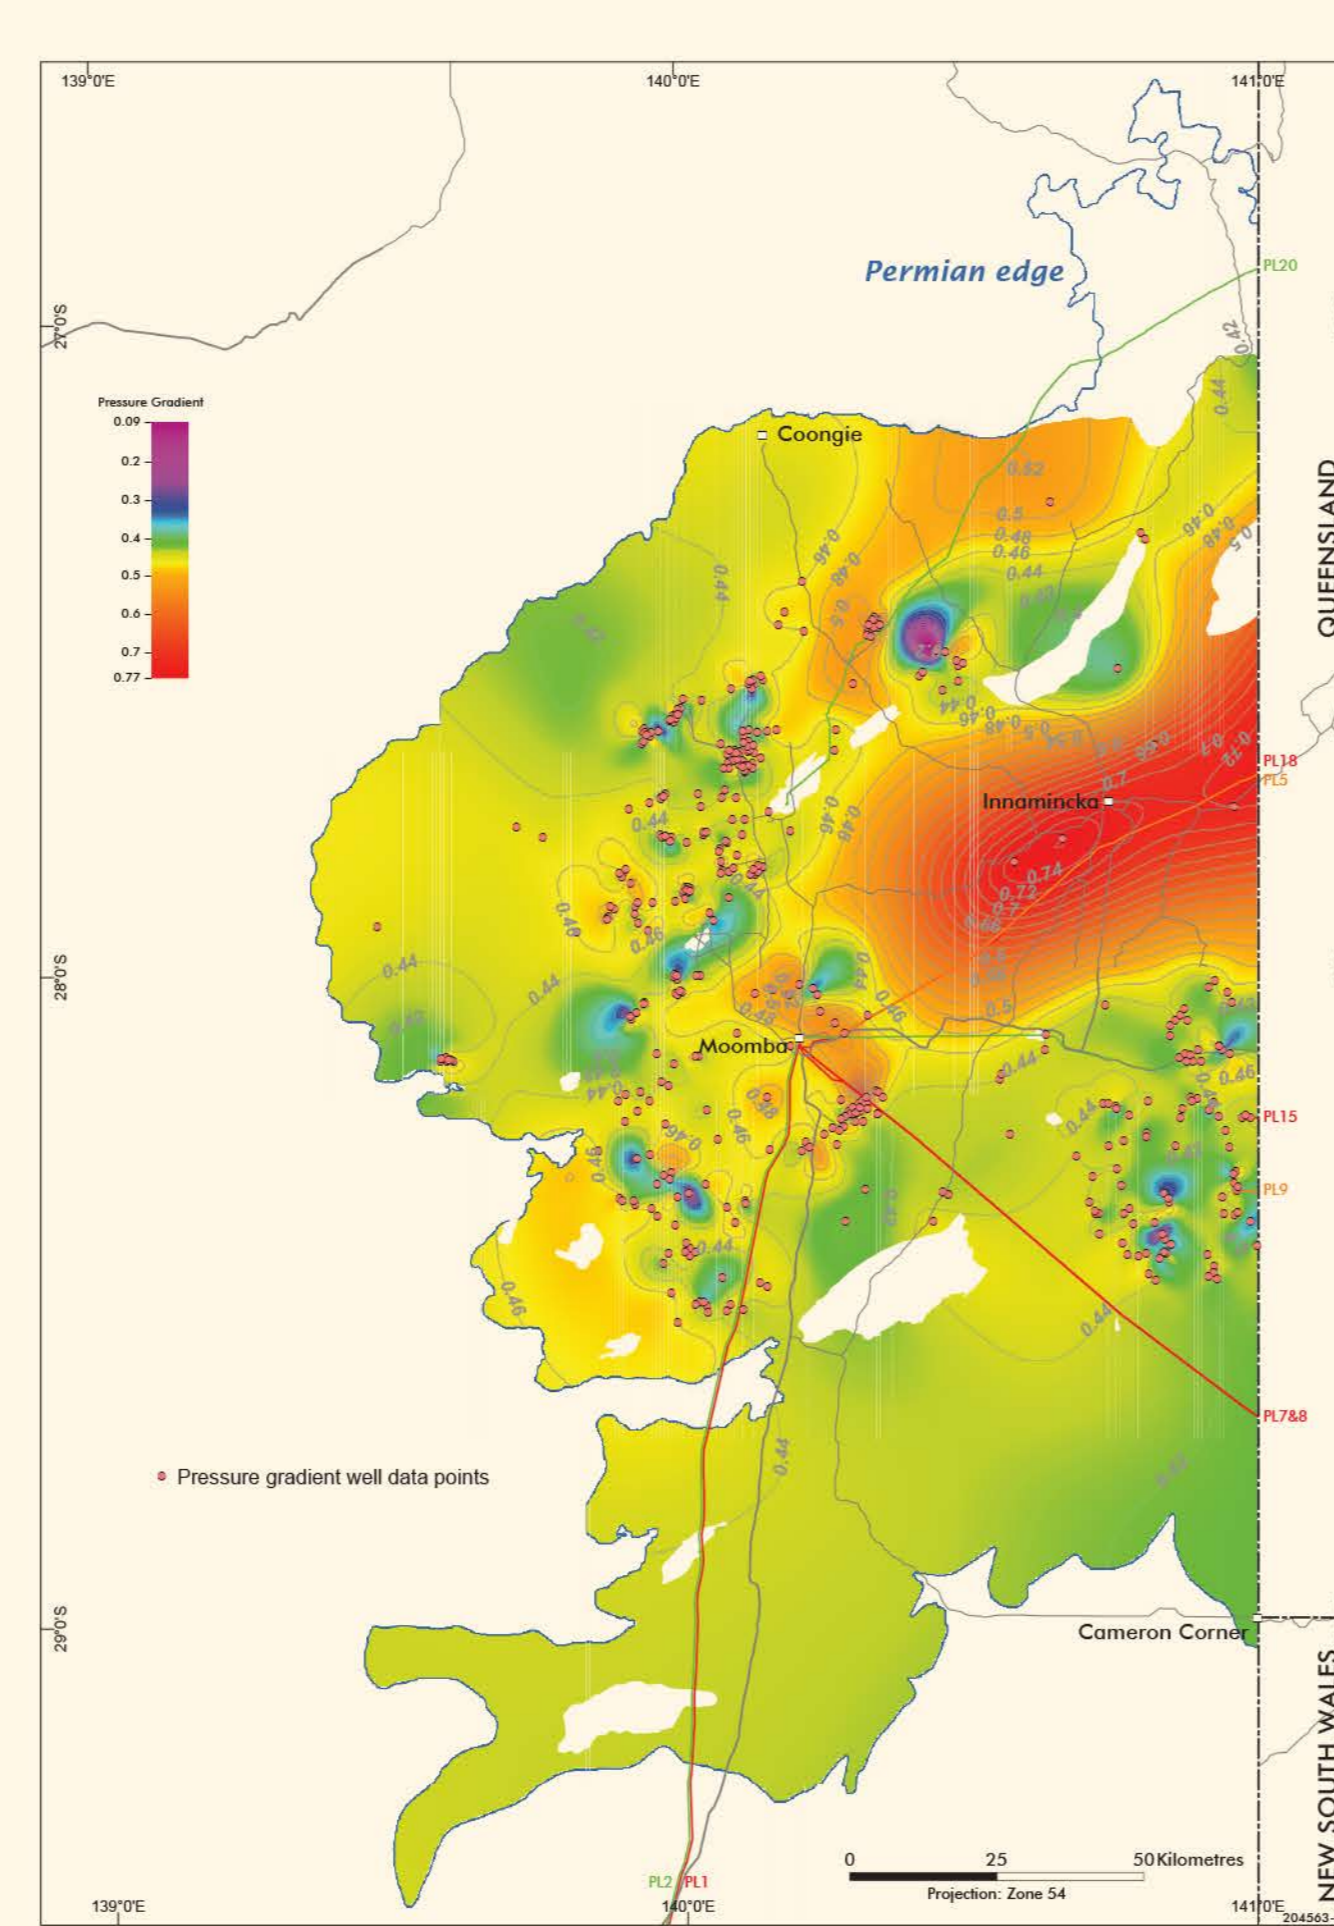

- 300 spatial petroleum datasets (tenements, geology, geophysical and land access)
- Spatially search & download well completion reports, 2D and 3D seismic data
- View new acreage releases and download related data packages
- New 3D Cooper Basin time slice tool

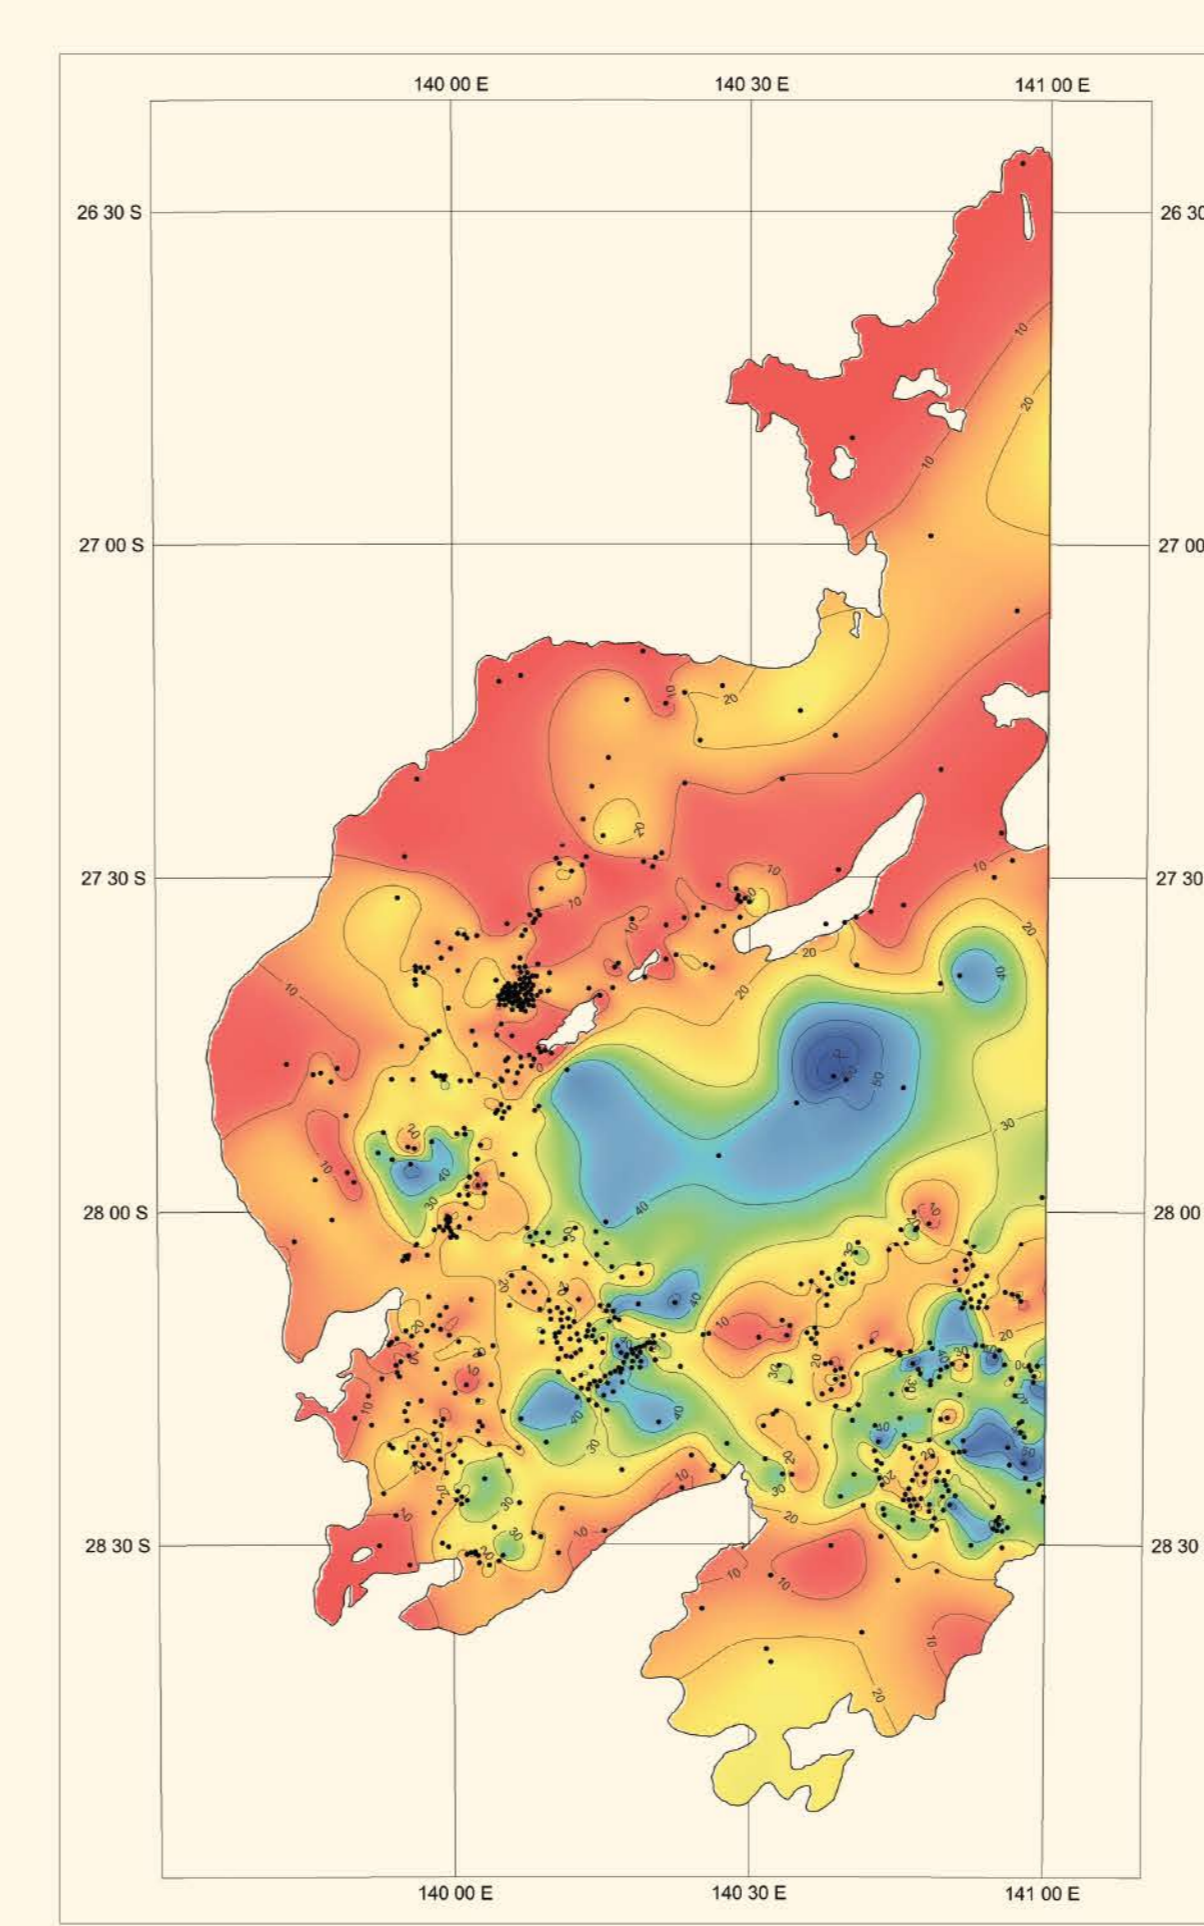

Cooper Basin Atlas

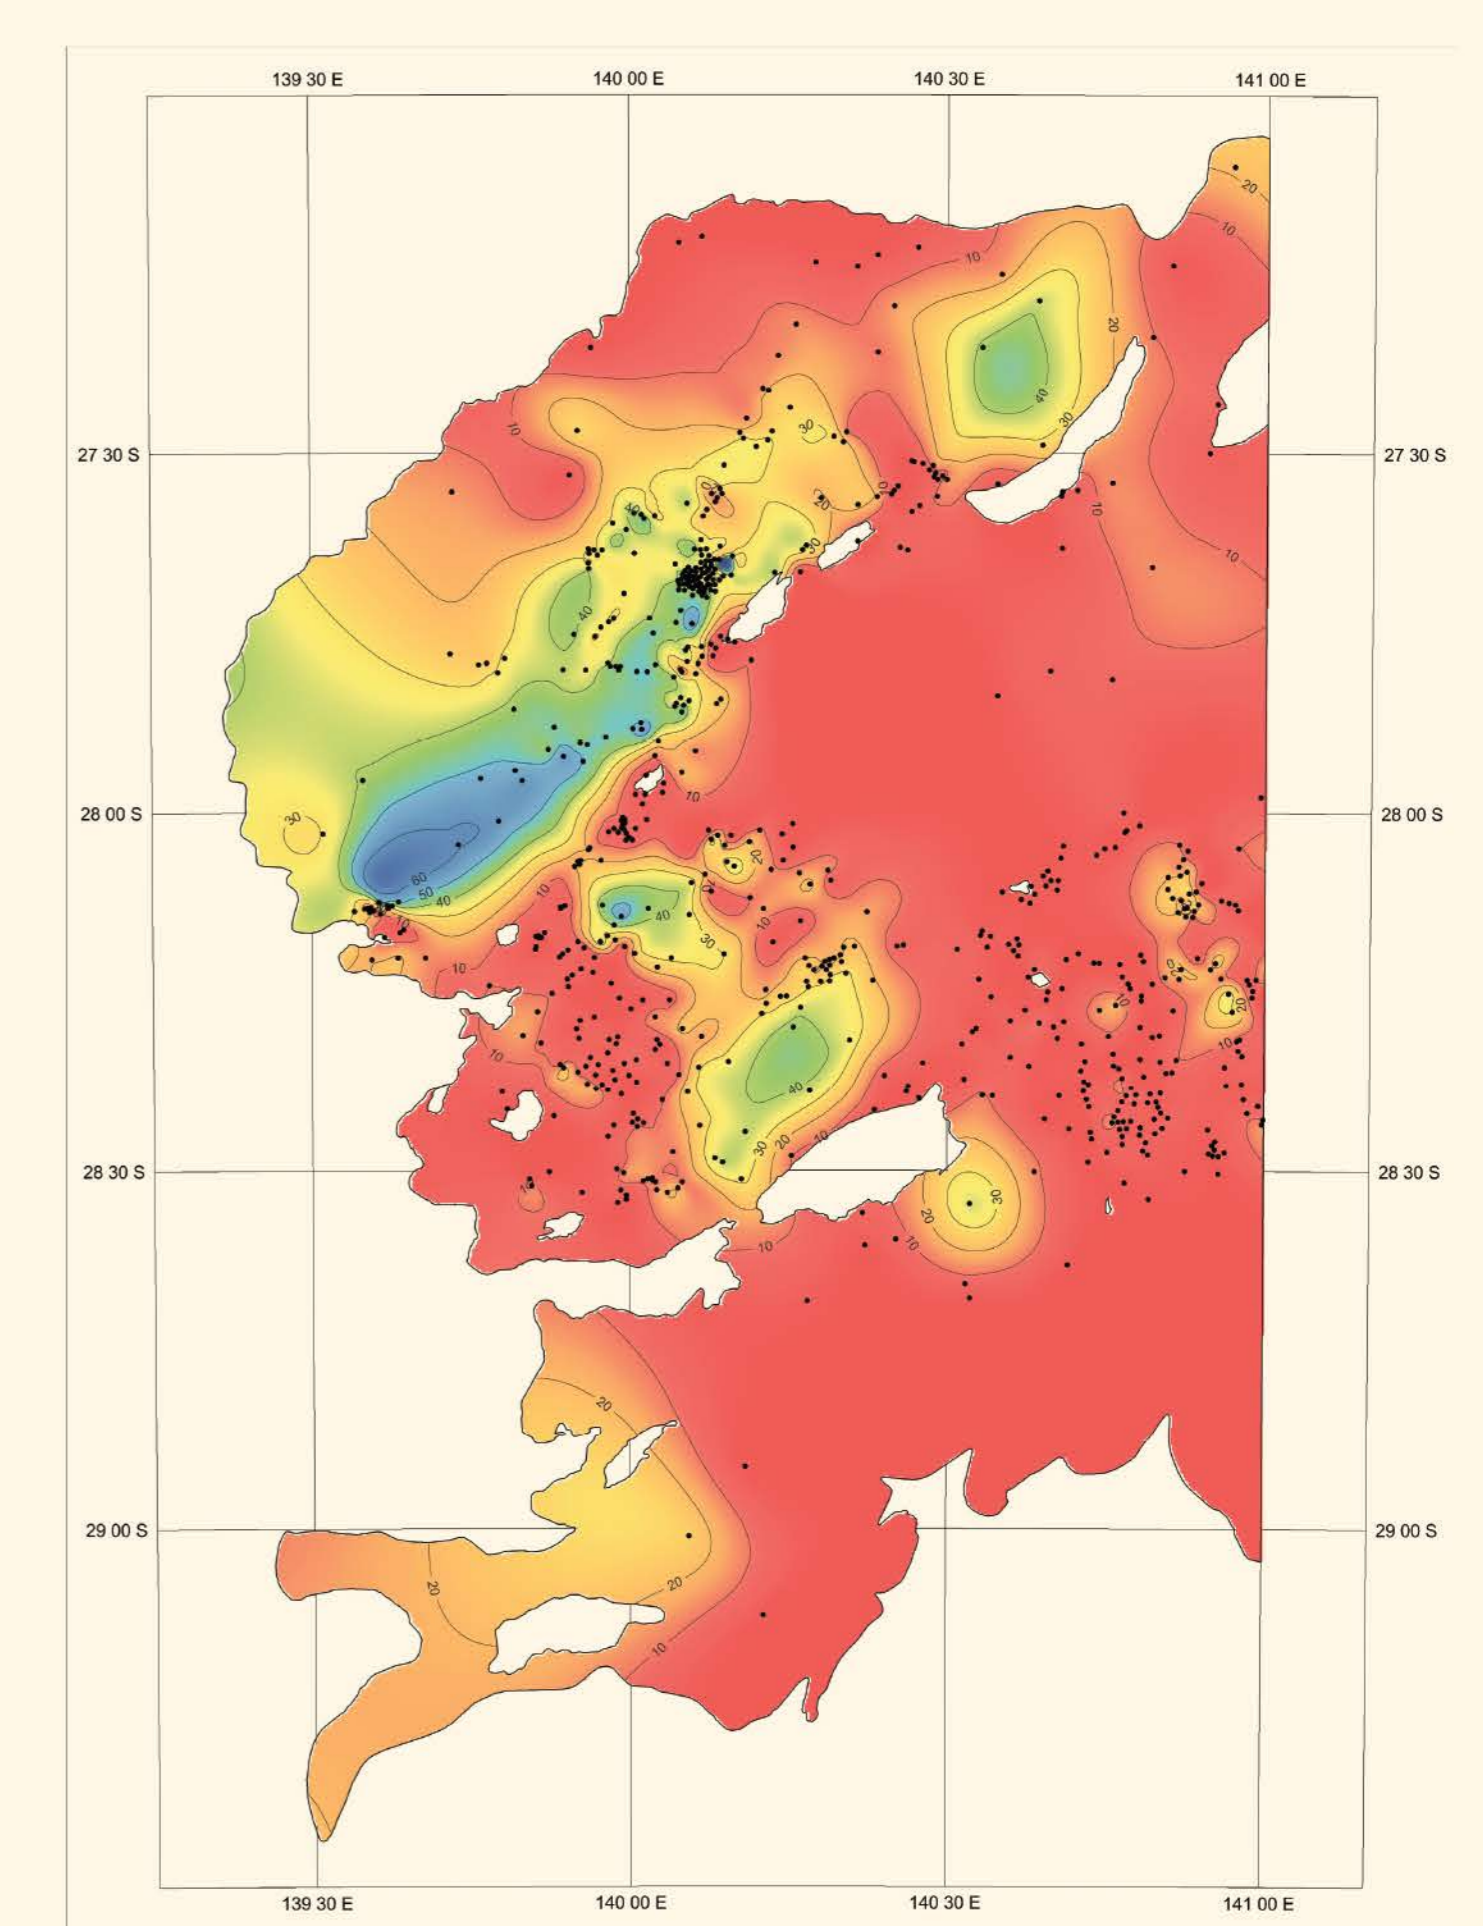

Patchawarra Formation Condensate

Patchawarra Formation Pressure Gradient

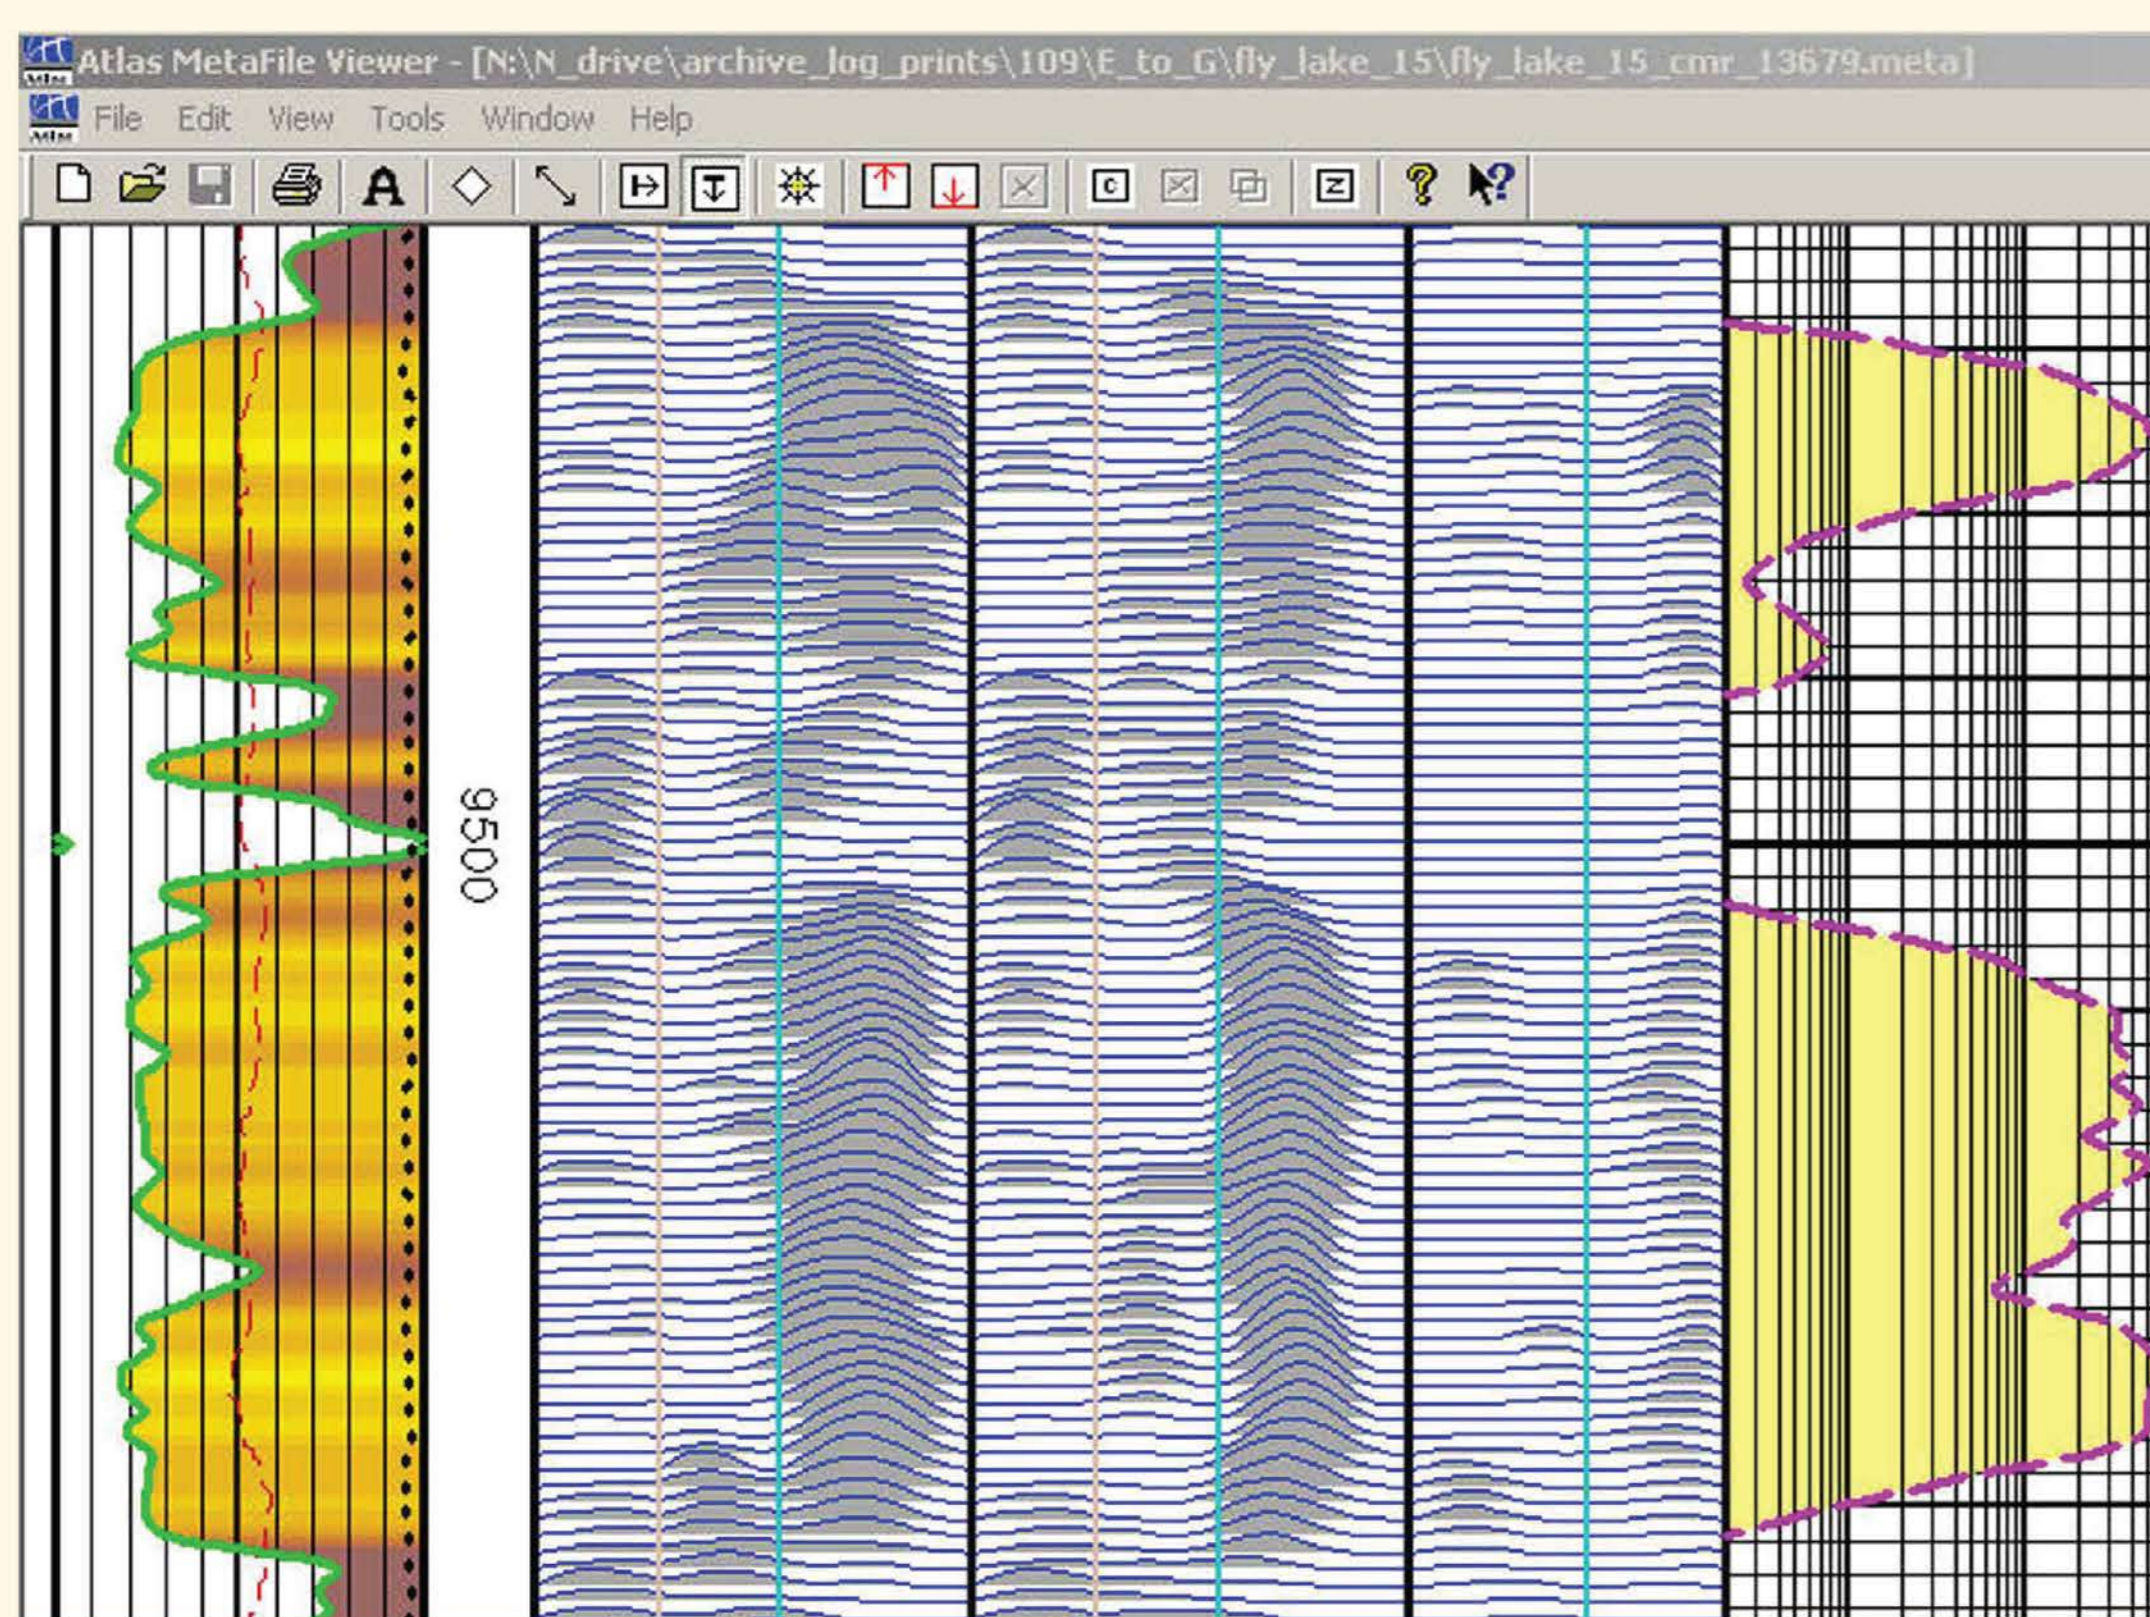

Toolachee Formation Sandstone Isopach

Patchawarra Formation Coal Isopach

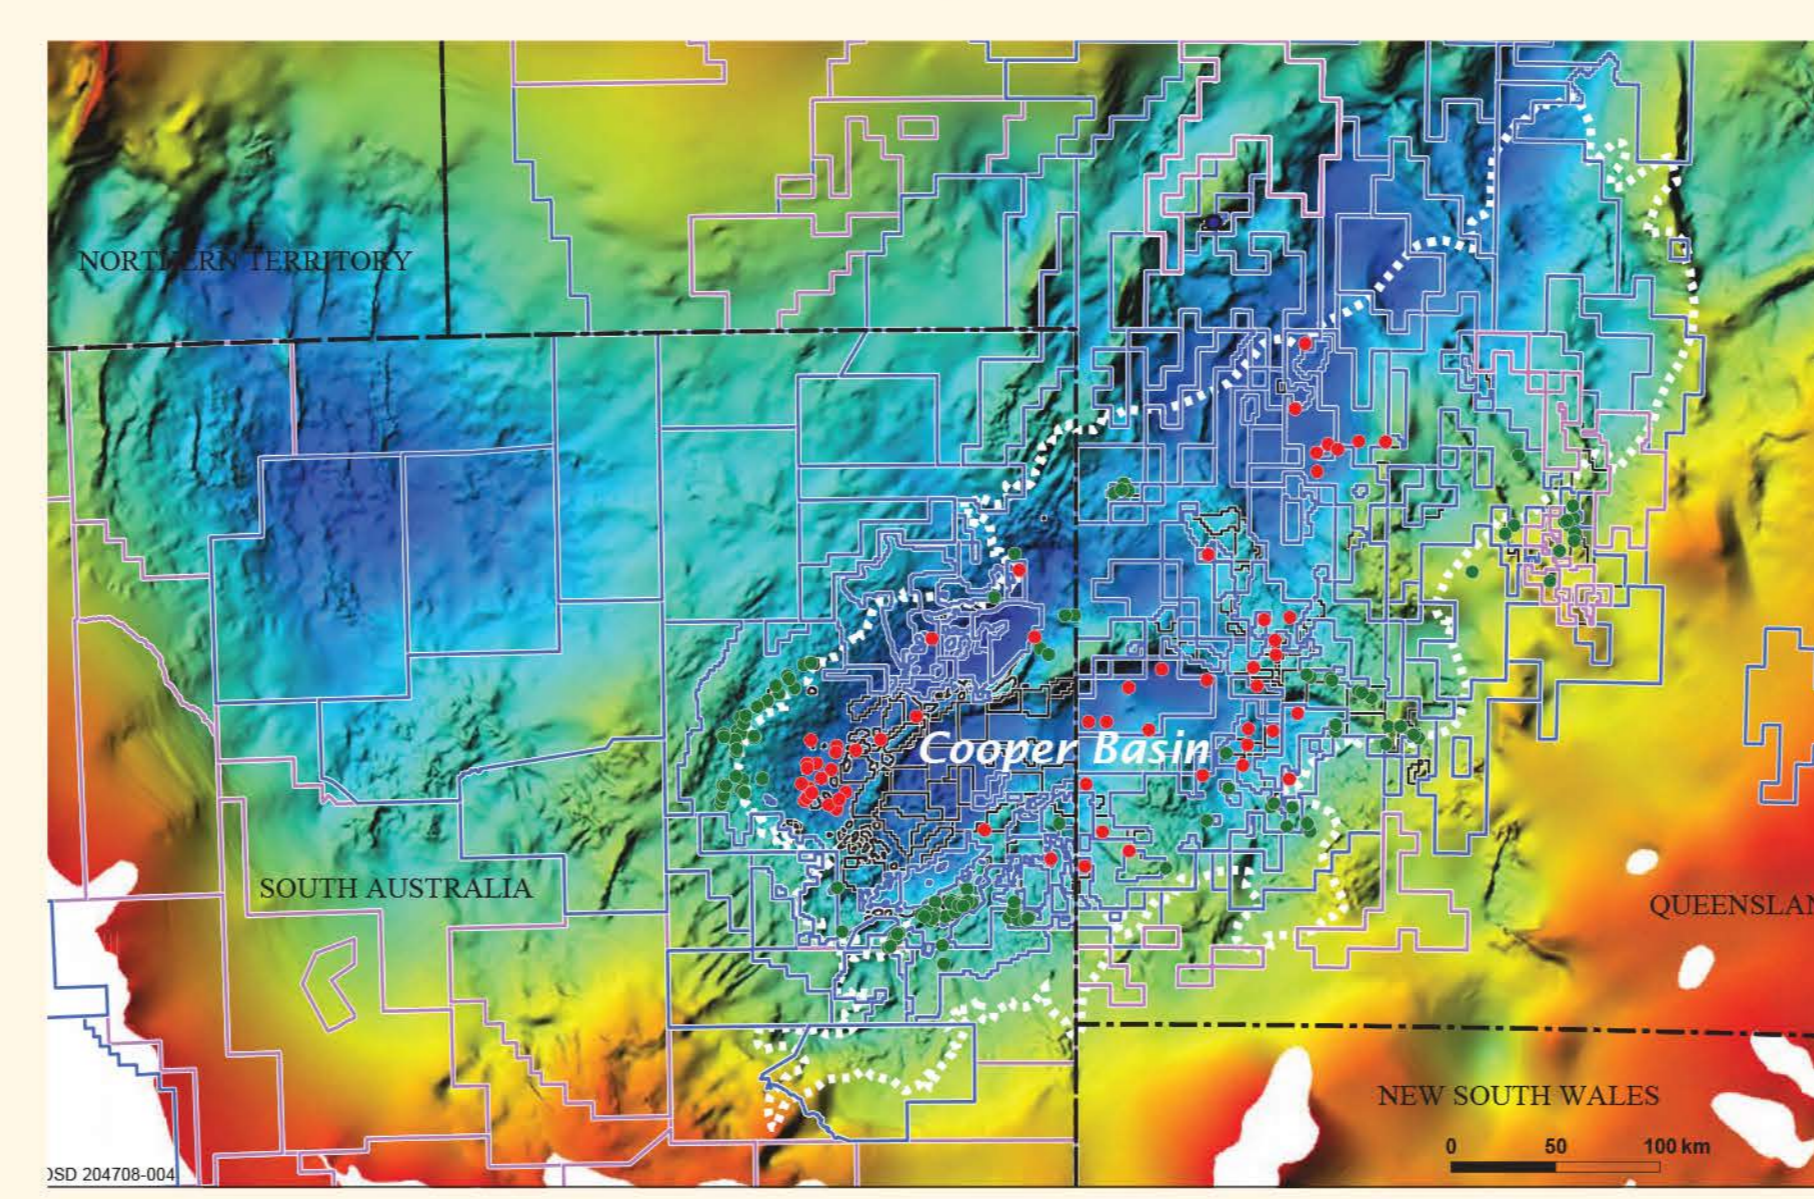

Bundled well data

On a removable hard drive (\$2000):

Well completion reports, PEPS-SA database, Digital well logs, Log displays, Thin section database, Core photos database, Open file downhole diagrams

Seismic horizon maps (Cooper and Eromanga)

Work station ready data*

2D SEGY datasets on a removable hard drive:

- Cooper Basin 1975–2000 \$1000
- Cooper Basin 2001–04 \$500
- Cooper Basin 2005–06 \$500
- Cooper Basin 2007–14 \$500
- Other basins (Pedirka, Officer, Otway, Arrows, Arkaringa, Murray, Stansbury also available).
- Field seismic and processed seismic data

*Discount available with bundled well data.
