

MISCELLANEOUS PURPOSES LICENCE: APPLICATION

USE THIS FORM TO: Apply for a miscellaneous purposes licence relating to the conduct of mining operations

Section A: Location of land

Section, Hundred	Hundred of Cunningham	(i) Clearly define the area of the land with as much detail as possible.
Pastoral block		
Other	See attached listing	
Local Council area	District Council of Yorke Peninsula	

Section B: Pegging of land

Pegging date	Pegged in an alternate manner - see attachment	(i) Consult the Act for pegging requirements.
Pegged by	Surveyed by Civil Surveys and Design (licenced surveyors)	

Section C: Owner of land

Provide details of the land owner/s within the licence area, and how Notice of Entry (Form 21) was served, in accordance with section 58A of the Act.

Title Reference	Owner of land	Date of Service	(i) A copy of each title (less than 3 months old), proving land ownership, must be attached. Proof of service must be attached.
See attached list			

Provide details of any agreements with owner/s of land to authorise entry, in place of a notice of entry.

		(i) A copy of each agreement, signed by both parties, must be attached.

Section D: Exempt land

Provide details of any land within the licence area that is 'exempt land' under section 9 of the Act.

		(i) Also identify exempt land in the area plans you provide. Do not include land subject to a waiver of exemption or Court determination.
See attached list		

Provide details of any exempt land for which a waiver of exemption has been negotiated.

		(i) A copy of each waiver must be submitted before mining operations can commence.

Section E: Attachments

The following attachments are required for the application to be valid.

<p><input type="checkbox"/> A detailed plan (labelled Plan 1) of the location of the land The plan must show the land sought to be included in the licence, and also –</p> <ul style="list-style-type: none"> - dimensions and coordinates/bearings of licence boundaries; and - bearings and distances from land boundaries or other known points; and - the proposed means of access from a public road. <p><input type="checkbox"/> A detailed plan (labelled Plan 2) of the physical features of the land This plan must show, with reasonable accuracy –</p> <ul style="list-style-type: none"> - the physical features of the area including high and low ground, the location of creeks, drainage channels, dams, roads, houses, fences, power lines, existing workings, dumps and tailing dams, standing trees and shrubs and any other relevant features within or adjacent to the licence area; and - the location of proposed buildings, treatment plant, tailings or other disposal areas, roads and tracks and other features of the proposal. <p>All measurements taken for the purposes of the plans must be taken with a GPS unit or other survey equipment.</p> <p><input type="checkbox"/> A management plan for the licence area The management plan must do the following –</p> <ul style="list-style-type: none"> - specify the nature and extent of the proposed operations or activities; and - set out an assessment of the environmental impacts of the proposed operations or activities; and - set out an outline of the measures proposed to manage, limit or remedy those environmental impacts; and - set out a statement of the environmental outcomes that are expected to occur; and - include a draft statement of the criteria to be used to measure the expected environmental outcomes; and - include the results of any consultation undertaken in connection with the proposed operations or activities. 	<p>i Attach two clearly labelled plans containing the required components.</p> <p>Attach a management plan that addresses each of the criteria listed.</p>
---	---

Section F: Application checklist

Ensure that the following items are included with your application (where relevant).

Section	Item	i Applications must contain these items (as applicable) in order to be valid.
C. Owner of Land & Notice of Entry	<input type="checkbox"/> A copy of each title evidencing ownership of the land, less than 3 months old <input type="checkbox"/> A copy of each notice of entry to land and proof of service <input type="checkbox"/> A copy of any agreement waiving notice of entry, signed by both parties	Invalid applications may be refused, or further information may be requested before application is accepted for processing.
D. Exempt Land	<input type="checkbox"/> A copy of any Waiver of Exemption agreement that has been finalised	
E. Attachments	<input type="checkbox"/> Plan 1 – location of the land <input type="checkbox"/> Plan 2 – physical features of the land <input type="checkbox"/> Management plan for the licence area <input type="checkbox"/> A separate 'applicant details' page for each applicant	
G. Payment Details	<input type="checkbox"/> Payment details below are complete, including fee amount	

Section G: Payment details

Fee	Miscellaneous Purposes Licence - application	\$	i Refer to the current fee schedule for the applicable fee.
Payment Method	<input type="checkbox"/> Cash – in person only. Do not post. <input type="checkbox"/> Cheque <input type="checkbox"/> Money Order <input type="checkbox"/> Credit Card – PIRSA to contact applicant for card details <input type="checkbox"/> Credit Card – details below - Visa / MasterCard (<i>circle one</i>)	OFFICE USE ONLY	
Card Number	EFT payment made 15/4/2013		CVV Code is the last 3 digits printed in the signature block on the back of the credit card.
Expiry MM/YYYY		CVV Security Code	
Cardholder Name			
Cardholder Signature			

NOTE: Each party must complete a separate copy of the 'applicant details' page and attach to this application.

ADELAIDE SA 5001
25th June 2013

To the Mining Registrar

Request for pegging a MPL in an alternate manner

Pursuant to Mining Regulation 52(1) Rex Minerals (SA) Pty Ltd (Rex) seek to apply for a miscellaneous purpose licence (MPL) in an alternate manner to that set out in the Regulations. The following information provides justification why approval is sought to peg the MPL area in an alternate manner.

The purpose of the MPL is to provide tenure for required infrastructure at and around the Port of Ardrossan. The area subject to the MPL application has a significant level of infrastructure already developed, and the placement of physical pegs would interfere with this infrastructure (eg within existing heavy vehicle roadways) and in some instances be impractical (eg existing infrastructure or paved areas). Several corners of the proposed MPL overlie open water which preclude conventional pegging. The proposed location of the MPL is provided in the accompanying diagrams.

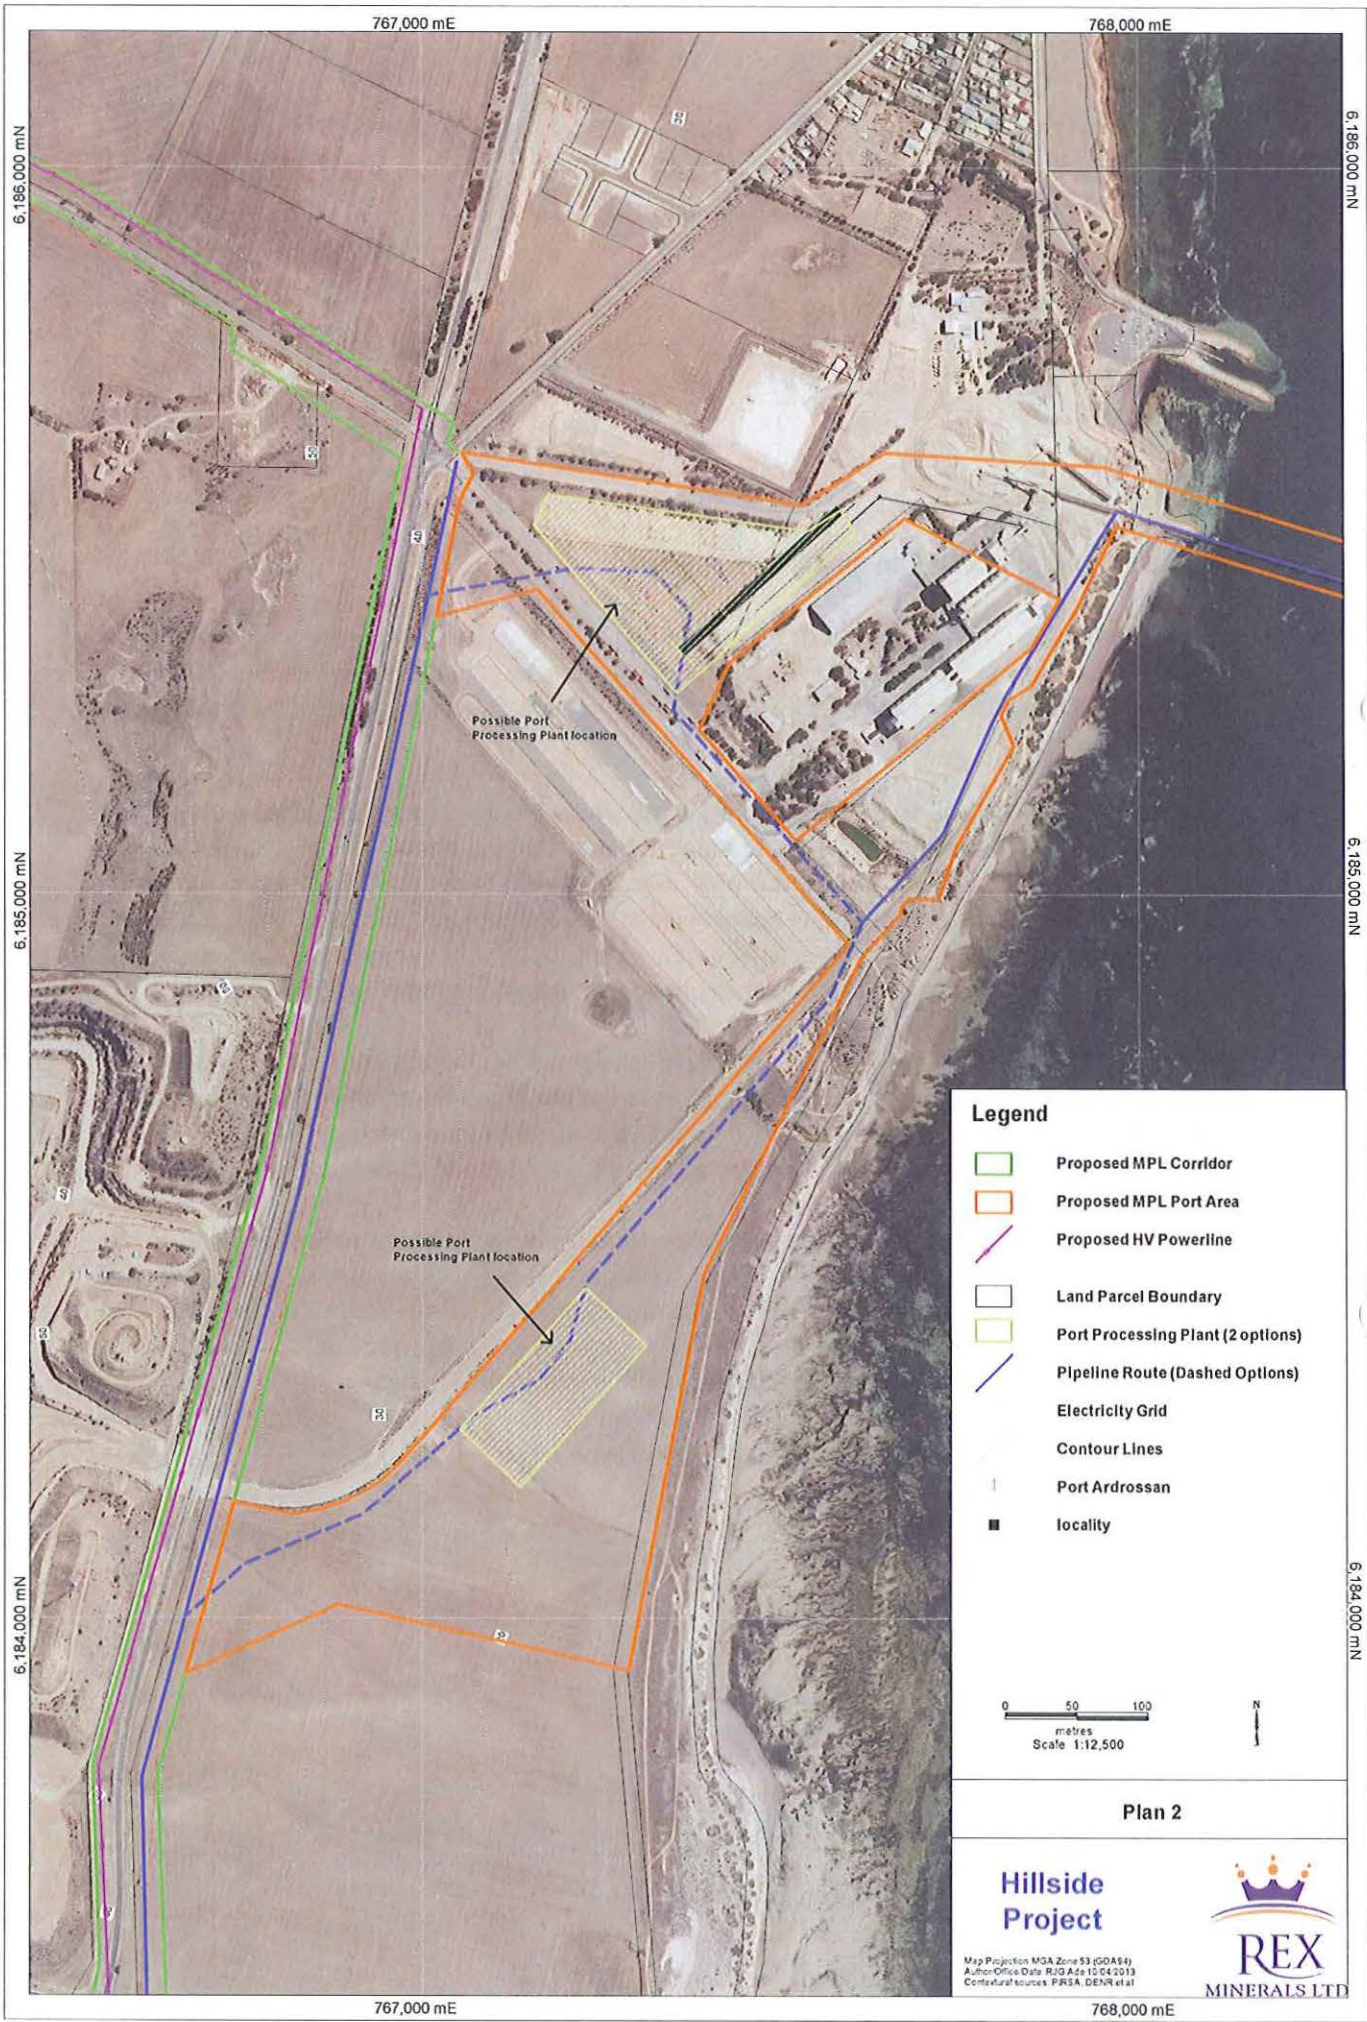

The proposed MPL boundaries are aligned with freehold title boundaries as far as practical, with additional corners required to preclude certain areas at the request of the freehold title owner (Viterra Operations Pty Ltd) and to facilitate specific infrastructure corridor requirements. The MPL has been designed to include only freehold land titles and avoid road corridors and coastal land.

The MPL application has been designed to allow for several contingency options relating to the placement of the required infrastructure. These contingencies are required whilst land access and leasing options are progressed with the relevant parties. It is Rex's intention to relinquish parts of the MPL once it has been confirmed that contingency options are no longer required for consideration. The MPL has been surveyed accordingly to allow for this intended relinquishment.

Please contact the undersigned if further information is required.

Yours sincerely,

Marc Twining
Exploration Manager
