Title	Mr
Given name	Will
Family name	Dunn
Email	will@mastertreecare.com.au
Submission date	18/09/2019
I understand that my submission, including my personal contact details, will be published on the DEM website and provided to the applicant	checked

Submission details

Issue	Noise.
Reference and page number (if known)	
Comment	Terramin rep on the night of meeting in town hall mentioned there wouldnt be any noise. Moments later we watched a vid taken from bird n hand. A much smaller drilling operation and the noise was clearing audible. Can you confirm that there will be zero noise like you mentioned.
Issue	traffic. Roads
Reference and page number (if known)	
Comment	12 trucks back and forth a day. How will our local roads survive. Already problematic areas.
Issue	Trees
Reference and page number (if known)	
Comment	Are any trees being removed from site? Any significant. Can I see permits if so. If Native Veg allow removal, have trees had aerial inspections to make sure native fauna arent displaced.
Issue	WATER
Reference and page number (if known)	
Comment	I know that Terramin have all the appropriately qualified people tick it off. But I just dont believe that they can move all that water out, then back in with out future repercussions.
Issue	Location

Reference and page number (if known)	
Comment	<p>Australia is huge. Why does this need to happen right in the heart of one of Australias most iconic tourism destinations. What adeliade hills tourism brings to the economy. Jobs. Money. Supports local business. All dwarfs what terramin proposed to bring. yet what they brings risks all we have.</p>
Additional comments	<p>A concern I have is after all these submissions have been filed. After Terramin reply to our submissions. Do we have another chance to reply?</p> <p>You ask a simple question, you get a confusing, big words, beat around the bush answer that doesnt actually answer your question at all. But legally, it does. Then they tick it off and move on. IF I get a unsatisfactory answer to a question/concern will I get a rebuttal?</p> <p>WHO IS GOING TO KEEP TERRAMIN ACCOUNTABLE? If they say one thing, then it turns out to be a lie. Will they be shut down and told to clear off?</p> <p>The risk to what we have here is TO HIGH. I know Terramin have insurance incase it all goes tits up. But the fact of the matter is that no amount of money will fix it. No amount of money is worth it. Just go somewhere else, somewhere our livelihood/way of life isnt on the cards.</p>
