- >
- > The anticipated return on the proposed Bird in Hand Gold Mine as it relates to the wider community is minimal when compared with the risk to the agriculture and tourism industries in South Australia.
- > The latter has generated sustainable employment for many South Australians. The former is likely to generate some jobs for a limited period.
- > The local, national and international reputation attached to the region is that of a pristine environment supporting green primary industry. A reputation earned from the considerable effort and investment of many South Australians.
- > The region also has a local, national and international reputation as a place in which a pristine lifestyle can be enjoyed by all.
- > This reputation has been furthered by those who have added value through the production of high quality food and wine.
- > Cultural and artistic sites in the region have been successfully protected and/or developed. The reputation of these sites would be tainted by inconsistent commercial development.
- > A reputation earned through long term effort can be lost in an instant when swayed by the attraction of a short term, and relatively small, commercial benefit.
- > Misdirection of the appetite for development will result in irreversible damage to one of the State's finest resources.
