#### **Submission details**

Issue	Noise, dust and water contamination
Reference and page number (if known)	
Comment	Noise, dust and water contamination could affect crops and disturb residents and visitors.
Issue	Economy
Reference and page number (if known)	
Comment	The region's annual farmgate turnover of more than \$50 million per year is at risk – any risk to water is a risk to farming activity.
Issue	Economy
Reference and page number (if known)	
Comment	The economic value of existing agriculture is forecast to be more than \$800 million over the next five years, while the mine will generate just over \$183 million in that time.
Issue	Jobs
Reference and page number (if known)	
Comment	More than 150 local jobs could be directly threatened by mining activity.
Issue	Noise
Reference and page number (if known)	

Comment	Operating 24/7, the mine will not stop of weekends, public holidays or after dark. Families and businesses will have to cope with constant noise, light and blasting.
Issue	Traffic
Reference and page number (if known)	
Comment	The miners will be trucking all of the ore from its Woodside operations to the Strathalbyn processing site. That is going to add 24 heavy truck movements per day to our already fragile country roads, including through the notorious Nairne intersection.
Issue	Reputation
Reference and page number (if known)	
Comment	The entire project threatens the Adelaide Hills' global reputation for clean, green produce, award-winning wine and pristine natural landscapes.
Issue	Land risk
Reference and page number (if known)	
Comment	Terramin propose to recover gold-bearing ore by blasting their way through kilometres of underground tunnels within metres of existing homes and businesses.
Issue	Tourism
Reference and page number (if known)	
Comment	Mining activity is sure to disturb or deter visitors to the area, causing a knock-on effect that will impact the many local businesses who rely on tourists.
Issue	Dust
Reference and page number (if known)	
Comment	Constant dust being produced by mine that will be blown into surrounding towns.
