Issue	Detrimental Health & Wellbeing of the Australian Public
Reference and page number (if known)	
Comment	Mining in any way, shape or form will continue to be detrimental to the health & wellbeing of the the Australian Public due to the heavy metals & chemicals used in the operation of mining. There is always the potential of water supply contamination. Catastrophic Historical events continue to repeat where the arrogance of those who (think they) know better than the Australian Public continue to carry out these ventures blinded by the \$ signs in their eyes. I implore the Australian Govt, on behalf of future generations, do not allow Mining anywhere in/near the proposed vicinity.
