Subject: submission re Rex Minerals Hillside Project

Dear Sir/Madam

I am opposed to prime agricultural land being sacrificed for short term mining gain.

The findings stated by Rex Minerals conclude there are 2 to 3 high wind days per year and feel this is low as I have lived on the Yorke Peninsula all my life and know there are more than what they have stated. Therefore I am very concerned about dust levels.

Farming is and always will be our long term viable future, not mining.

Regards
Lynette Rowe
