To: South Australian State Government

I am not an Adelaide Hills resident, but I am an employee of one of the unique winery located at Woodside.

The future of the Adelaide Hills wine region depends on its image of a pristine landscape, ecologically sound agriculture and world-class wineries.

This mining development will damage the water supply to wineries. By killing local wineries, this mining development will result in severe deep in SA tourism what will have drastic consequences for the 744 tourism-based business in this area.

I am very concerned that Terramin is proposing to blast underground twice a day, every day. (Terramin MLA 3.1.2) There is no way that testing can adequately predict the impact of underground blasting on our precious aquifer system.

The ONLY WAY to ensure the security of our is to STOP this MINE from GOING AHEAD.

Best regards,

Agnieszka Wyszomirska
