Pine Point 5571.

Mr Mark Howe  
Mining Assessment  
DMITRE  
Mineral Resources Division  
GPO Box 1671  
Adelaide 5000,

Dear Sir,

It is to our concern of the impact on the proposed  
Hill Top Copper Mine at Pine Point,

- (1) The waste dust that is going to drift out onto Gulf St Vincent that damage is of great concern
- (2) The impact it will do to Tourism in the area
- (3) What is it going to do to Real-Estate in the local area "Black Point" will it de value our Properties ?
- (4) This Mine is going to be 450 meters deep there are still some Bores in the area it is of concern that the water table will drain into the Mine being the lowest point and those Bores will be of no further use.

Yours Faithfully  
Malcolm R Wheare
