

Overseas Travel (1 July – 31 Dec 2022)

Government of South Australia
Department for Energy and Mining

Department for Energy and Mining - Public Sector Employees

No of Travelers	Destination	Reason for travel	Total cost of travel*
1	England/Germany	Berlin - to attend ISO/TC 265 Pipeline Standard Working Group 2 Workshop Meeting. This was critical to progressing the review of the CO2 pipeline standard. London - to attend the Carbon Capture and Storage legislation meeting with the United Kingdom HSE department in London. This facilitated the establishment of the international regulatory networks regarding Carbon Capture and Storage (CCS) to share experiences and lessons in this new and unique field.	\$4,601.50
1	Singapore	To attend the Green Hydrogen Conference for hydrogen industry stakeholders from around the world including Asia-Pac, MENA, Europe, and the Americas. The Conference had a strong agenda and offered a rare face to face opportunity for engagement with the hydrogen sector stakeholders from around the world.	\$4,345.64
1	Japan/ South Korea	To accompany and support the Premier of South Australia and the Minister for Energy and Mining and engage with potential suppliers and partners for the Hydrogen Jobs Plan.	\$19,332.97
1	Germany	To participate in the International Energy Agency Geothermal Implementing Agreement (IEA GIA) Executive Committee and Research Annex meetings, and the Central American Geothermal Workshop in Berlin. As the Australian Representative to the IEA GIA, the Department for Energy and Mining is obliged to attend and participate in at least one meeting annually. A representative from the Department for Energy and Mining is required to present a status report of the Geothermal Industry in Australia at these meetings annually.	\$8,288.58
1	Canada	To present at the Quebec Energy and Mining conference on South Australia's regulatory and safety regime for hydrogen and decarbonisation of mining. The Department for Energy and Mining is a member of HySafe and a representative is required to attend the annual general meeting and nominate for the Presidency of the organisation. This gave opportunities to South Australia to develop clean hydrogen credentials.	\$10,471.93
1	Spain	To attend the annual REN 21 Steering committee in Madrid. This allowed the Department for Energy and Mining to actively participate in REN21 activities and support South Australia's bid to host the International Renewable Energy Conference to Adelaide in 2024. South Australia in	\$6,317.40

		partnership with the Clean Energy Council has bided to host the 2024 IREC in Adelaide.	
2	Germany	Attendance at Berlin Conference: Energy Transition. This allowed for international cooperation between Australia and Germany to identify solutions to challenges associated with the energy transition towards a carbon constrained energy system.	\$9,339.36
1	Norway	To represent Australia as one of fifteen country members at the Executive Committee meeting for the International Energy Agency (IEA) Enhances Oil Recovery (EOR) Technical Collaboration Programme (TCP). Knowledge gained has informed the Department for Energy and Mining's petroleum investment and regulatory frameworks to remain up to date with industry's emerging needs, technological advances and achieve leading practice.	\$6,368.42
1	USA	This face-to-face meeting over three days was critical to the Committee Draft of the CO2 pipeline standard released for consultation by ISO/TC265 on 17th September. The significance of the work conducted at these meetings has been recognised as a critical technology for the purpose of greenhouse gas emissions. Furthermore, the Carbon Capture and Storage standards captured at this meeting was needed to provide regulatory certainty for CCS companies minimising regulatory burdens, improve efficiencies and support greenhouse gas emission reduction policies and regulations.	\$5,071.88
