Hi Mark,

Just got the below email through DMITRE:DMITRE inbox and the attached letters are attention to you.

Would you able to take care of it?

Thanks.

Lili Qian

Communications Administration Officer

Strategy, People and Culture

Department for Manufacturing,

Innovation, Trade, Resources and Energy

Subject: Mr Howe Proposed Hillside Mine

Please find our submissions to the proposed Rex minerals Hill Side project at Pine Point SA.

I Draw your attention Mr Howe to the overall importance of agriculture to this state and further more to this particularly the central Yorke Peninsula arguably the most productive cropping area in the state. I believe that if allowed this mine will have huge implications on not just our agribusiness but many more in the general area don't put the billion dollar primary industry on the peninsula at risk for a short term mine. I believe you see where our business' feelings are if you have any more questions or would like to speak to me personally my details are below.

Regards Ben Francis, Manager Loudounbrae Farming
