Subject: Terramin Bird in Hand

Hello,

I would like to advise I am absolutely against Terramin re-opening the Bird In Hand mine.

I don't believe they have adequately researched and found a way to definitely introduce the water back into the aquifer and this will have long term ramifications for the primary producers, land owners and environment in the vicinity.

Sadly Terramin can take as many steps as they can and plan for a disaster, however we all know best laid plans do not go well and an environmental disaster would be catastrophic to the area along with destroying people's lives and businesses. It is a beautiful pristine area - please leave it alone.

Thank you

Regards

Amanda Langbein
