Comment	
Additional comments	<p>This Project will generate significant economic activity in the hills community, providing job opportunities for locals who wish to work in sectors other than tourism.</p> <p>This project may have the most detailed model of an aquifer in the state, resulting in a deep understanding of the ground water which should have alleviated the concerns of some locals who continue to campaign on scare tactics and alternate facts.</p> <p>The amount of community consultation on this project has been significant and community issues raised have been listed to and addressed in the ML application.</p> <p>I look forward to this Project being approved.</p>
