Subject: Mining in the hills around Adelaide

Firstly our water catchment is one of the most valuable resources we have -we can not afford to risk it in anyway--- the Adelaide Hills are a major tourist area known well for farm produce wines fruits we need a clean green reputation to promote this ---it is special---it is also a food production area-- we need to eat and drink and earn money it is that simple. We must not allow this to have any risk to SA for someone else to profit from.we also need to have open access to discussions and the decision makers Jean Sent from my iPad
