#### Submission details

Issue	Noise
Reference and page number (if known)	
Comment	All mines make noise, regardless of disposition and assurances.
Issue	Dust
Reference and page number (if known)	
Comment	Digging creates dust, which is a public health hazard and may impact the local wineries.
Issue	Visual amenity
Reference and page number (if known)	
Comment	No mine is visually attractive, which will detract from the local scenery enjoyed by so many through the local wineries and polo grounds.
Issue	Trucks
Reference and page number (if known)	
Comment	Trucks will be required to transport ore to the processing facility in Strathalbyn, which will make local roads more dangerous.
Issue	Tourism
Reference and page number (if known)	

Comment	The Adelaide Hills depends strongly on tourism, attracting 1.4 million visitors each year, which will be negatively impacted by noise, dust, trucks and visual impact from the mine.
Issue	Blasting
Reference and page number (if known)	
Comment	Blasting to loosen ore will physically impact nearby operations, such as Petaluma, Artwine and Bird in Hand wineries.
Issue	Water
Reference and page number (if known)	
Comment	There is strong potential for negative impact on the local water table. Petaluma draws 80% of its process water from a bore, adjacent the mine.
