GPO Box 2455
ADELAIDE, SA, 5001

Dear Peter

SA Cooper Basin Annual Report/Emergency Procedure Drill Reporting

Further to your letter of 16 May 2003 requesting approval to change various annual compliance reporting, emergency procedure drill and FFP reporting requirements, I grant the following approvals.

- Pursuant to s. 134 of the *Petroleum Act 2000*, approval is given to extend by one month the submission of the SACB annual compliance report, from the end of February to the end of March of each year.
- Approval is given to include PLs 5, 9 and 15 within the one SACB Annual Report.
- Approval is given for emergency procedures drills for PLs 5, 9 and 15 to be conducted as part of the SACB emergency procedure drill program (i.e. SACB emergency drills conducted in a two year period must include a drill which is sufficient to address pipeline emergencies on PLs 5, 9 and 15).
- Approval is granted to include the Pump Station 1 at Moomba in the 5 yearly Fitness for Purpose assessment report for all SACB facilities, rather than in the Fitness For Purpose Report for Pipeline Licence No 2.

Yours sincerely

Barry Goldstein
Director Petroleum
Delegate to the Minister for Mineral Resources Development
