

Government of South Australia

Department for Transport,
Energy and Infrastructure

MEDIA RELEASE

20th March 2009

Non compliant electrical work performed by Samir Eid

The Technical Regulator, Department for Transport Energy and Infrastructure, is responsible for monitoring and enforcing the *Electricity Act*. This includes conducting audits on electrical workers and contractors to ensure that their electrical work complies with standards.

Recent audits of electrical contractor Samir Eid has identified that he is performing electrical work that in some cases has created a danger to the property owner and the general public.

The Technical Regulator, Mr Rob Faunt, said that electrical work performed by Mr Eid was found to be highly non compliant.

Mr Faunt strongly recommended that any person who has contracted Mr Eid to perform any electrical work should arrange for a licensed electrical contractor to inspect the work to make sure that it is safe.

For further information please contact the Office of the Technical Regulator on 8226 5518.
